EXECUTIVE COMMITTEE OF
THE MULTILATERAL FUND FOR THE
IMPLEMENTATION OF THE MONTREAL PROTOCOL
Twenty-ninth Meeting
Beijing, 24-26 November 1999

Corrigendum

PROJECT PROPOSALS: ARGENTINA

SECRETARIAT'S COMMENTS AND RECOMMENDATIONS

COMMENTS

1. Replace paragraph 5 on page 6 with the following:
 5. (a) With regard to the CFC consumption of the Argentinean enterprises in the sub-sector and their project eligibility, the Secretariat has subsequently received a clarification from the Government of Argentina based on the Country Programme's foam sector update. It indicated that the comment that the majority of the companies identified in the sub-sector at the time (1995) as having phased out CFC was only an estimate not backed by any documentation. It further clarified that the CFC consumption of Fasax was checked by the Government and UNOPS officials and also subject to confirmation through a sworn statement of the company in line with Argentinean legislation on the Montreal Protocol and its amendments. The statement of the Government may be provided on request.
 - (b) However, agreement has not been reached with the implementing agency on the basis for calculating the eligible grant, whether it should be based on LIA or methylene chloride.
