EXECUTIVE COMMITTEE OF
THE MULTILATERAL FUND FOR THE
IMPLEMENTATION OF THE MONTREAL PROTOCOL
Thirty-fourth Meeting
Montreal, 18-20 July 2001

Addendum

PROJECT PROPOSAL: MOROCCO

This document contains the draft agreed conditions for phase out of MB in Morocco as referred to in paragraph 14 of document UNEP/OzL.Pro/ExCom/34/38

AGREED CONDITIONS FOR PHASE-OUT OF METHYL BROMIDE IN MOROCCO (DRAFT)

1. The Executive Committee:

- (a) at its 29th Meeting, approved US \$1,006,652 as the total funds that will be available to Morocco to achieve the complete phase out of methyl bromide (MB) used in cut flowers and banana production (61 ODP tonnes);
- (b) at its 32nd Meeting, approved additional US \$2,189,729 as the total funds that will be available to Morocco to achieve the complete phase out of MB used in strawberry crops (additional 151.6 ODP tonnes);
- (c) at its 34th Meeting, approved in principle additional US \$3,957,844 as the total funds that will be available to Morocco to achieve the complete phase out of MB used in tomatoes (additional 389.9 ODP tonnes).

2. As reported to the Ozone Secretariat, the MB baseline for compliance for Morocco is 695.8 ODP tonnes; the 1999 and 2000 MB consumption (reported to the Ozone Secretariat) was 409 and 870.2 ODP tonnes. Accordingly, Morocco must reduce its 2000 consumption of MB by at least 174.2 ODP tonnes to achieve compliance with the Montreal Protocol's 2002 freeze obligation and by at least 313.6 ODP tonnes to achieve compliance with the Protocol's 20 per cent reduction in 2005.

3. Through the implementation of the above investment projects, the Government of Morocco commits to reduce its total national consumption of controlled uses of MB to no more than the following levels:

Year	Maximum level of MB consumption by crop (ODP tonnes)				Consumption level
	Strawberries	Bananas/flowers	Tomatoes	Total phased out	
2001	23.4	0.0	0.0	23.4	744.0
2002	15.6	40.0	109.8	165.4	578.6
2003	20.4	21.0	52.9	94.3	484.3
2004	42.2	0.0	52.1	94.3	390.0
2005	50.0	0.0	77.9	127.9	262.1
2006	0.0	0.0	97.2	97.2	164.9

4. Upon completion of the projects, the maximum MB consumption in Morocco shall not exceed 164.9 ODP tonnes. Morocco also commits to permanently sustain the consumption levels indicated above through the use of import restrictions and other policies it may deem necessary. UNIDO shall report back annually to the Executive Committee on the progress achieved in meeting the reductions required by the tomatoes project.

5. Following an initial disbursement of US \$ 400,000 in the year 2001, funding for later years in the tomatoes project will be disbursed by UNIDO in accordance with the following schedule, and with the understanding that a subsequent year's funding will not be disbursed until the Executive Committee has favourably reviewed the prior year's progress report:

2002 30 per cent of the funds
2003 30 per cent of the funds
2004 30 per cent of the funds

6. The Government of Morocco will have flexibility in implementing the projects components which it deems more important in order to meet its phase out commitment noted above. UNIDO agrees to manage the funding for the projects in a manner designed to ensure that the specific annual reductions agreed are met.

7. This agreed conditions between the Government of Morocco and the Executive Committee has taken into account the already approved MB phase out projects in cut flowers, banana production and strawberry crops and, therefore, supersedes the agreed conditions at the 32nd Meeting of the Executive Committee.
