COMITE EXECUTIF  
DU FONDS MULTILATERAL AUX FINS  
D'APPLICATION DU PROTOCOLE DE MONTREAL  
Cinquante-huitième réunion  
Montréal, 6 - 10 juillet 2009

**RAPPORT PÉRIODIQUE DE L'ONUDI  
AU 31 DÉCEMBRE 2008**

Le présent document comprend :

- Les observations et les recommandations du Secrétariat du Fonds
- Le rapport périodique/financier de l'ONUDI pour 2008 (janvier à décembre 2008)

Les documents de présession du Comité exécutif du Fonds multilatéral aux fins d'application du Protocole de Montréal sont présentés sous réserve des décisions pouvant être prises par le Comité exécutif après leur publication.

## OBSERVATIONS DU SECRETARIAT DU FONDS

### Introduction

1. Le présent document contient les observations et les recommandations du Secrétariat du Fonds sur le rapport périodique de l'ONUDI portant sur les activités menées jusqu'au 31 décembre 2008. Le rapport périodique est joint au présent document.

### Points saillants

- Un montant de 154,9 millions \$US a été approuvé pour des accords pluriannuels (APA) dont la mise en œuvre a été confiée à l'ONUDI; il restait un solde de 34,5 millions \$US au 31 décembre 2008.
- 60 APA sont en cours de mise en œuvre; cinq APA (approuvés il y a plus d'un an) ont déboursé moins de 20 % des fonds approuvés.
- Parmi les APA ayant un faible taux de décaissement, on trouve des PGEF pour les pays suivants : Burundi, Érythrée, Guinée, Honduras, Mexique, Niger et Yémen.
- L'APA du Yémen pourrait être modifié pour couvrir des solutions de remplacement aux hydrocarbures.
- Un fonds renouvelable a été établi pour le plan d'élimination des CFC du Venezuela.
- Sept projets classés comme ayant des retards de mise en œuvre font l'objet de procédure d'annulation.
- Des retards ont été enregistrés dans la préparation de projets pour le secteur du bromure de méthyle en Serbie et dans la préparation de PGEH au Bahreïn, en Bosnie-Herzégovine, au Qatar, en Arabie saoudite, au Soudan et au Yémen.
- Les documents et/ou les papiers pour faciliter la libération des ressources destinées au renforcement des institutions en Bosnie-Herzégovine et au Qatar doivent être signés.
- Les retards se poursuivent dans les activités de stockage de halons en Bosnie-Herzégovine et en Jamahiriya arabe libyenne.

### État de mise en œuvre

2. Durant la période examinée (janvier à décembre 2008), l'ONUDI a éliminé 1 756 tonnes PAO et déboursé environ 29,2 millions \$US. Le Comité exécutif a approuvé 29 projets d'investissement en 2008, d'une valeur d'environ 30,7 millions \$US, aux fins de mise en œuvre par l'ONUDI, en vue d'éliminer 3 028 tonnes PAO, dont 214 tonnes PAO de production.

3. En 2008, l'ONUDI a terminé 32 projets d'investissement. Cumulativement, 85 % (502 projets) des 588 projets d'investissement approuvés aux fins d'exécution par l'ONUDI ont été achevés. L'ONUDI a éliminé 91 % (64 189 tonnes PAO, dont 17 041 tonnes PAO de production) des SAO à éliminer de son portefeuille de projets approuvés (70 606 tonnes PAO, dont 17 602 tonnes PAO de production). Vers la fin de 2008, elle a décaissé 86 % (408,22 millions \$US) des ressources que le Comité exécutif avait approuvées à son intention (475,03 millions \$US), excluant les coûts de soutien d'agence.

4. L'ONUDI a également terminé sept projets d'assistance technique et renouvelé ou établi un total de quatre projets de renforcement des institutions en 2008. Elle met actuellement en œuvre 58 accords pluriannuels fondés sur la performance (APA), pour lesquels 9,4 millions \$US ont été approuvés en 2008; 12 autres APA ont été ajoutés au portefeuille de l'ONUDI en 2008. Enfin, l'ONUDI a terminé huit activités de préparation de projets en 2008.

## Progrès réalisés en 2008 au niveau des pays

5. L'Annexe I contient une évaluation, par pays, des activités de l'ONUDI en 2008. L'ONUDI avait prévu des décaissements dans 62 pays ou régions; elle a réalisé un taux de décaissement minimal de 85 % dans 37 de ces pays ou régions.

6. D'après les dates révisées d'achèvement prévu soumises par l'ONUDI en application de la décision 53/38 et les résultats figurant dans son rapport périodique pour 2008, l'ONUDI a terminé 75 % des projets dont elle avait prévu l'achèvement en 2008 et réalisé 91 % de l'élimination visée.

## Accords pluriannuels fondés sur la performance

7. L'ONUDI a inclus dans son rapport périodique des renseignements sur les 60 APA en cours d'exécution. Les principales sources d'information sur l'avancement de ces activités sont les programmes de travail annuels et les rapports périodiques correspondants.

### Décaissement pour les accords pluriannuels

8. La mise en œuvre par l'ONUDI des 60 APA comprend 110 tranches annuelles, avec un solde qui reste à déboursier. Les tranches annuelles sont indiquées dans le tableau 1.

Tableau 1

<b>Grand Total</b>	<b>154 912 364</b>	<b>122 845 557</b>	<b>32 066 807</b>	<b>12 835 887</b>	<b>13 146 429</b>	<b>18 920 378</b>

Note: Les rubriques marquées en gras indiquent les projets approuvés il y a plus d'un an et dont les décaissements sont inférieurs à 20 %. Les rubriques en italiques désignent les pays dont les projets ont été approuvés il y a moins d'un an et dont les décaissements sont inférieurs à 20 %.

9. Sur le montant de 154 912 364 \$US de fonds approuvés pour les tranches annuelles des APA, l'ONUDI a déboursé 122 845 557 \$US (79 %), ce qui laisse un solde de 32 066 807 \$US. Sur ce solde, 13 146 429 \$US (41 %) devraient être décaissés en 2009. L'ONUDI a indiqué que les décaissements étaient inférieurs à 20 % des fonds approuvés pour 14 APA, dont cinq avaient été approuvés il y a plus d'un an. Dans le cas de certains APA, les décaissements étaient de zéro ou pratiquement zéro à la fin de 2008, en raison essentiellement de leur approbation aux deuxième ou troisième réunions de 2008. Ces projets comprenaient des plans d'élimination de SAO ou de CFC au Burundi, en Érythrée, en Guinée, en Honduras et au Niger. Certains de ces projets (tels que ceux du Bénin, du Mexique, de la République de Congo et du Yémen) ont commencé à décaisser des montants importants en 2009.

10. Concernant le PGEF au Bénin, une mission conjointe PNUE-ONUDI s'est rendue au Bénin en octobre 2008 et les modalités de mise en oeuvre ont été approuvées. Bien que des fonds plus importants aient maintenant été déboursés, les faibles taux de décaissement du début étaient dus à un début tardif et au temps consacré à finaliser la liste de matériel. Le PNUE organisera la formation dès réception du matériel. Le retard dans les décaissements initiaux du projet de la République de Congo (Brazzaville) était dû à la lenteur de la procédure de congé des acquisitions. Les décaissements ont commencé en 2009 et les fonds ont maintenant été déboursés.

11. L'ONUDI a indiqué que la lenteur des décaissements était liée aux activités d'autres agences. Par exemple, en ce qui concerne le PGEF (première tranche) au Burundi (approuvé en juillet 2008), l'ONUDI a expliqué qu'elle attendait des instructions du PNUE avant d'acheter le matériel.

12. Une autre raison expliquant le faible taux de décaissement était la non application des décisions du Comité exécutif par le pays. L'ONUDI a signalé qu'aucun décaissement n'a été fait pour le PGEF sur les CFC en Érythrée (approuvé en avril 2008) parce que les décaissements n'étaient pas autorisés avant la mise en place du système des licences. L'ONUDI a indiqué que les tentatives de résolution du problème n'ont pas été fructueuses.

13. L'ONUDI a également indiqué que la lenteur des décaissements dans le PGEF (première tranche) en Guinée (approuvé en juillet 2008) était liée à l'exécution par le PNUE d'un programme de formation, tandis que les décaissements du PGEF (première tranche) en Honduras (approuvé en juillet 2008) devaient attendre que le PNUD ait terminé le PGF du pays.

14. Le Comité exécutif est invité à demander que de nouveaux rapports périodiques sur les PGEF au Burundi, en Érythrée, en Guinée, au Honduras et au Niger, lui soient soumis pour examen à sa 59<sup>e</sup> Réunion.

#### Changement possible dans les accords pluriannuels

15. Dans le cas du plan national d'élimination des SAO (première tranche) au Yémen (YEM/PHA/55/INV/28, approuvé en juillet 2008), aucune raison n'a été donnée pour le faible taux de

décaissement. L'ONUDI a contacté le Secrétariat du Fonds multilatéral pour déterminer s'il convient de modifier l'accord pour tenir compte de la fusion de cinq entreprises utilisant des hydrocarbures au Yémen.

16. Le matériel pour les volets fabrication et réparation d'appareils de réfrigération du projet a été acheté vers la fin de décembre 2008. L'expert en mousse recruté s'est rendu au Yémen au début de décembre 2008 pour évaluer la situation des 10 entreprises de réfrigération commerciale et étudier la possibilité de mettre en oeuvre la technologie à base d'hydrocarbure. Le gouvernement envisage de fusionner 5 entreprises et de leur fournir du matériel à base d'hydrocarbure, tandis que les 5 autres recevront du matériel à base de HCFC. Le Secrétariat a indiqué que l'ONUDI pourrait faire la reconversion du moment qu'elle soit conforme avec la clause relative à la flexibilité (décision 46/37) ou encore proposer de modifier l'accord dans le cadre de la nouvelle soumission d'un plan annuel.

#### Fonds autorenewable pour le plan national d'élimination des CFC du Venezuela

17. L'ONUDI a indiqué que le mécanisme de récupération et de recyclage est totalement opérationnel dans le cadre du plan national d'élimination de CFC. Le matériel de régénération a été installé dans les locaux de PRODUVEN et est exploité au sein du système R&R. Pour le moment, 4 395 techniciens de la réfrigération ont été formés et 3 889 ont reçu leur certification. Le plan pilote est entièrement opérationnel. Un programme de refroidisseur sera mis en oeuvre avec un programme d'incitation et des fonds renouvelables. Le système de surveillance et de communication de données sera poursuivi, ainsi que la formation et le programme de certification des techniciens.

18. Une banque sera choisie pour mettre en oeuvre le fonds autorenewable du Venezuela, et une société d'audit sera sélectionnée pour évaluer le système. En réponse à une question posée par le Secrétariat, l'ONUDI a indiqué qu'elle avait de l'expérience dans l'exécution de projets avec des fonds renouvelables. L'ONUDI a indiqué qu'elle exécute actuellement trois projets d'énergie (en Zambie, à Cuba et au Sénégal) avec des fonds renouvelables, sous la houlette du FEM.

#### **Projets individuels**

19. La présente section porte sur les projets individuels souffrant de retards de mise en oeuvre et qui font l'objet de procédure d'annulation, de préparation, l'accent étant placé sur l'état de préparation des PGEH.

#### Retards de mise en oeuvre

20. Compte tenu des projets éliminés de la liste sur décisions du Comité exécutif, il reste sept projets souffrant de retard de mise en oeuvre. Quatre de ces projets ont également été classés parmi les projets en retard en 2007. En 2008, l'ONUDI avait moins de projets souffrant de retard de mise en oeuvre qu'en 2007, où leur nombre était de 12. Le Comité exécutif est invité à noter que l'ONUDI lui rendra compte à la 59<sup>e</sup> Réunion de sept projets ayant des retards de mise en oeuvre, dont quatre souffraient déjà de tels retards en 2007.

#### Retards possibles dans la préparation de projets

21. La préparation de projets dans le secteur des fumigènes (bromure de méthyle) en Serbie (YUG/FUM/45/PRP/26) avait été approuvé il y a plus de trois ans, et la plupart des fonds ont servi à établir les niveaux de consommation. L'ONUDI a cependant indiqué que des discussions sont en cours avec le gouvernement, concernant la possibilité de préparation de projets. On ignore si un projet d'investissement résultera de la préparation de projets pour le secteur du bromure de méthyle en Serbie.

Le Comité exécutif pourrait demander qu'un autre rapport de situation sur ce projet lui soit présenté à la 59<sup>e</sup> Réunion afin d'en suivre les progrès.

#### Préparation de projets de PGEH

22. L'ONUDI met en oeuvre 39 projets pour la préparation de plans de gestion de l'élimination des HCFC (PGEH). Les progrès semblent lents dans plusieurs de ces projets, dont un grand nombre devraient être achevés en décembre 2009.

23. Dans plusieurs cas, alors que la préparation des projets avait été approuvée en juillet 2008, aucun fonds n'a encore été décaissé. C'est le cas dans les pays suivants : Bahreïn (BAH/PHA/55/PRP/20), Bosnie-Herzégovine (BHE/PHA/55/PRP/23), Qatar (QAT/PHA/55/PRP/11), Arabie saoudite (SAU/PHA/55/PRP/05) et Yémen (YEM/PHA/55/PRP/29).

24. La coopération interagences semble être un facteur contributeur à la lenteur des progrès dans la mise en oeuvre des PGEH et le décaissement des fonds. Dans plusieurs des cas mentionnés ci-dessus (Qatar, Arabie saoudite et Yémen), l'ONUDI a indiqué qu'elle travaillait en conjonction avec le PNUE dans l'exécution des PGEH. Dans tous les cas, en réponse aux questions du Secrétariat sur l'état des travaux relatifs à la législation, l'ONUDI a répondu que le PNUE était responsable de cet élément du PGEH. Par ailleurs, l'ONUDI a aussi indiqué qu'en ce qui concerne le Bahreïn (BAH/PHA/55/PRP/20), dont le plan a été approuvé en juillet 2008 et pour lequel aucun fonds n'a encore été décaissé, le PNUE était chargé du recrutement des experts nationaux, ainsi que de l'élément législatif du PGEH.

25. Une autre raison possible des retards semble être l'absence d'activités de la part de l'unité nationale d'ozone (UNO). Quant au plan de la Bosnie-Herzégovine (BHE/PHA/55/PRP/23), approuvé en juillet 2008 pour s'achever en décembre 2009 et pour lequel aucun fonds n'a encore été décaissé, l'ONUDI a expliqué que le mandat avait été soumis à l'UNO pour la sélection de consultants. L'absence de recrutement d'un consultant serait donc liée aux retards causés par l'UNO.

26. Dans le cas du PGEH pour le Soudan (SUD/PHA/55/PRP/21), approuvé en juillet 2008 avec une date d'achèvement prévue en décembre 2009, seulement 60 \$US ont été déboursés. Il n'est pas clairement indiqué si le recrutement a eu lieu.

27. L'ONUDI a indiqué que la date prévue d'achèvement de la préparation de projets en Chine (CPR/PHA/55/PRP/470) a été reportée au mois d'avril 2010, parce que la Chine est de loin la plus grande consommatrice de HCFC parmi les pays A5 et que, étant donné le niveau de coordination interagences nécessaire pour entreprendre ce PGEH, l'ONUDI a estimé qu'un an ne suffirait pas pour terminer le projet.

28. Dans le cas des projets où les activités de HCFC ont clairement progressé, comme en Égypte (EGY/PHA/55/PRP/96), l'ONUDI a expliqué que c'était le résultat de la nomination rapide des experts nationaux et du temps de réponse bref de l'UNO et des ministères gouvernementaux responsables. Il semble donc que la coopération en temps opportun des différentes autorités nationales contribue à accélérer la mise en oeuvre des PGEH.

29. Le Comité exécutif est invité à demander de nouveaux rapports de situation sur les activités de préparation de PGEH au Bahreïn (BAH/PHA/55/PRP/20), en Bosnie-Herzégovine (BHE/PHA/55/PRP/23), au Qatar (QAT/PHA/55/PRP/11), en Arabie saoudite (SAU/PHA/55/PRP/05), Soudan (SUD/PHA/55/PRP/21) et au Yémen (YEM/PHA/55/PRP/29).

## **Projets de renforcement des institutions, de bromure de méthyle, de stockage de halons et de refroidisseurs**

30. Cette section couvre les projets de renforcement des institutions, de bromure de méthyle et de stockage de halons, qui ne font pas l'objet de surveillance par des rapports de retards de mise en œuvre et ne relèvent donc pas de procédures d'annulation. Le Secrétariat examine les informations des bases de données des rapports périodiques communiquées par les agences pour déterminer si ces projets se heurtent à des problèmes et propose le cas échéant diverses solutions à l'examen du Comité. La section couvre également les informations sur les projets de refroidisseurs. Les projets de refroidisseurs font également l'objet d'une étude sommaire par l'administrateur principal intérimaire de la surveillance et de l'évaluation, comme il est indiqué dans la note UNEP/OzL.Pro/ExCom/58/9.

### Renforcement des institutions

31. L'ONUDI met en œuvre des projets de renforcement des institutions, qui ont établi des UNO dans les 11 pays suivants : Bosnie-Herzégovine, Égypte, Jamahiriya arabe libyenne, Mexique, Monténégro, Oman, Qatar, Serbie, République arabe syrienne, l'Ex République yougoslave de Macédoine et Turkménistan. L'ONUDI a signalé des progrès dans les projets des pays suivants : Égypte, Jamahiriya arabe libyenne, Mexique, Monténégro, Oman, Serbie, République arabe syrienne, l'Ex République yougoslave de Macédoine et Turkménistan.

32. De nouveau cette année, l'agence a indiqué qu'en ce qui concerne le projet de renforcement des institutions en Bosnie-Herzégovine (BHE/SEV/43/INS/19), le document de projet n'est toujours pas signé, malgré les efforts déployés. L'ONUDI a indiqué qu'elle enverra une mission en 2009 pour ranimer la mise en œuvre du projet.

33. Au Qatar, le début de la mise en œuvre du projet de renforcement des institutions (QAT/SEV/49/INS/08) a été retardé en raison de la non application des exigences de l'ONUDI en matière de compte rendu dans le projet précédent (Phase I, financement de première année). L'ONUDI a expliqué que le retard était dû à la lenteur des procédures d'obtention d'une signature dans le pays et aux retards dans la soumission de rapports au titre du contrat courant de l'ONUDI. Un expert national a été retenu en avril 2008; le contrat a été envoyé à l'expert, qui ne l'a pas encore retourné dûment signé à l'ONUDI.

34. Le Comité exécutif est invité à demander que la Bosnie-Herzégovine et le Qatar accélèrent la signature des accords requis et fournissent tous les documents connexes nécessaires pour faciliter le décaissement des fonds aux projets de renforcement des institutions, ainsi qu'à demander que de nouveaux rapports de situation sur les projets de renforcement des institutions en Bosnie-Herzégovine (BHE/SEV/43/INS/19) et au Qatar (QAT/SEV/49/INS/08) lui soient soumis à sa 59<sup>e</sup> Réunion.

### Projets de bromure de méthyle

35. L'ONUDI met en œuvre 16 activités de bromure de méthyle, dont deux activités d'assistance technique, cinq activités de préparation de projets, huit projets d'investissement et un projet de démonstration. La plupart des activités semblent bien progresser. Les activités de préparation de projets en Algérie et en Tunisie sont gardées en suspens jusqu'à ce qu'une solution de remplacement appropriée soit trouvée pour le bromure de méthyle pour des dates à taux d'humidité élevé.

### Élimination de halons

36. L'ONUDI met en œuvre des projets d'élimination de halons en Bosnie-Herzégovine, en Jamahiriya arabe libyenne, au Koweït et en Oman. L'élimination des halons commencera le 1<sup>er</sup> janvier

2010; certains de ces projets n'ont pas encore débuté ou sont encore aux premières étapes de mise en œuvre.

37. Concernant le projet d'élimination de halons en Bosnie-Herzégovine (BHE/HAL/42/TAS/18), l'ONUDI a indiqué que sur les 64 600 \$US approuvés pour le projet, 14 181 \$US avaient été décaissés. Ce projet a été approuvé en avril 2004. Le projet devait être achevé l'année dernière, mais il a été retardé. La portée des acquisitions de matériel local et international a été finalisée. Les appels d'offre vont commencer une fois réglées les questions de congé douanier et d'exemption des TVA.

38. Le projet de planifier l'élimination des importations et de la consommation nette de halons dans le secteur de la lutte contre l'incendie en Jamahiriya arabe libyenne (LIB/HAL/47/TAS/26) a été approuvé sous réserve qu'un plan d'activités soit établi (décision 47/11). Cette condition a été réitérée dans la décision 53/12. L'ONUDI avait indiqué l'année dernière que la sélection d'une entité pour recevoir le matériel de stockage de halons était en cours et qu'à la suite de cette sélection, des lignes directrices détaillées pour le plan de durabilité seraient préparées et que les activités de mise en œuvre du projet pourraient commencer. Toutefois, l'entité initialement retenue pour accueillir le matériel de stockage de halons n'a pas pu obtenir l'approbation du ministère de l'Industrie. Une autre entité (une fabrique de fer et d'acier) a été proposée et son acceptabilité est en cours de vérification.

39. Le Comité exécutif est invité à demander que lui soient soumis de nouveaux rapports de situation sur les projets d'élimination de halons en Bosnie-Herzégovine (BHE/HAL/42/TAS/18) et en Jamahiriya arabe libyenne (LIB/HAL/47/TAS/26).

#### Projets de refroidisseurs

40. L'ONUDI a signalé des progrès dans les trois projets de refroidisseurs dans les trois régions ci-après:

- Europe de l'Est (Croatie, l'Ex République yougoslave de Macédoine, Monténégro, Roumanie et Serbie);
- Afrique (Cameroun, Égypte, Namibie, Nigeria et Soudan);
- Asie occidentale (République arabe syrienne).

41. Elle a indiqué que vers la fin de 2008, 42 % des fonds approuvés avaient été décaissés et 74 % des fonds avaient été engagés, et que les projets avaient tiré profit du cofinancement. Pour la République arabe syrienne, les fonds découlant du cofinancement (270 000 \$US) ont dépassé de beaucoup le niveau de financement initialement prévu (27 165 \$US).

42. Pour l'Europe, l'ONUDI avait indiqué que les huit refroidisseurs pour la Croatie, le Monténégro, la Roumanie et l'Ex République yougoslave de Macédoine et les deux refroidisseurs pour la Serbie avaient été livrés et installés vers la fin de 2008. Dans la République arabe syrienne, les trois refroidisseurs avaient été remplacés et les quatre autres refroidisseurs étaient en cours d'adaptation.

#### **RECOMMANDATIONS**

43. Le Comité exécutif est invité :

- a) À prendre note du rapport périodique de l'ONUDI, présenté dans la note UNEP/OzL.Pro/ExCom/58/14;

- b) À demander que des rapports de situation sur les projets ci-après soient présentés à la 59<sup>e</sup> Réunion:
  - i) PGEF au Burundi, en Érythrée, en Guinée, au Honduras et au Niger;
  - ii) Préparation de projet dans le secteur des fumigènes (bromure de méthyle) en Serbie (YUG/FUM/45/PRP/26);
  - iii) Activités de préparation de PGEH au Bahreïn (BAH/PHA/55/PRP/20), en Bosnie-Herzégovine (BHE/PHA/55/PRP/23), au Qatar (QAT/PHA/55/PRP/11), en Arabie saoudite (SAU/PHA/55/PRP/05), au Soudan (SUD/PHA/55/PRP/21) et au Yémen (YEM/PHA/55/PRP/29);
  - iv) Renforcement des institutions en Bosnie-Herzégovine (BHE/SEV/43/INS/19);
  - v) Renforcement des institutions au Qatar (QAT/SEV/49/INS/08);
  - vi) Projet de stockage de halons en Bosnie-Herzégovine (BHE/HAL/42/TAS/18);
  - vii) Projet de stockage de halons en Jamahiriya arabe libyenne (LIB/HAL/47/TAS/26);
- c) À noter que l'ONUDI rendra compte à la 59<sup>e</sup> Réunion de sept projets ayant des retards de mise en œuvre en 2008, donc quatre projets déjà classés dans cette catégorie en 2007;
- d) À prier le gouvernement de Bosnie-Herzégovine d'accélérer la signature du document de projet, afin de faciliter le décaissement des fonds pour le projet de renforcement des institutions (BHE/SEV/43/INS/19);
- e) À prier le gouvernement de Qatar d'accélérer la signature des accords requis et de fournir tous les documents exigés, afin de faciliter le décaissement des fonds pour le projet de renforcement des institutions (QAT/SEV/49/INS/08).

## I. Project Approvals and Disbursements

### Annual summary data

- 1) Table 1 “Annual Summary” includes the most important annual data, such as number of approvals, corresponding ODP (wherever applicable), approved funding, adjustment and disbursement characteristics. The cumulative funds for the period 1993-2008 approved for UNIDO activities under the Multilateral Fund amount to US\$ 475,032,521, excluding agency support cost and the core unit funding. This amount, however, includes the adjustments made until end 2008. The details are contained in the attached database printout (Annex II). In this printout, the data are sorted by regions and within each region the completed, financially completed, ongoing and closed (cancelled) projects are listed.
- 2) As of 31 December 2008, UNIDO’s cumulative disbursement for all projects (completed and ongoing) amounts to US\$ 401,223,272 excluding agency support cost and core unit funding. This corresponds to a delivery rate of 84.0 per cent. Out of this amount, US\$ 366,358,564 relate to cumulative disbursement for investment projects (Table 2, “Summary Data by Project Type”). This represents 85 per cent of the total value of investment project approvals including adjustments as of December 2008.

### Interest

- 3) The interest earned for the period 1993 – 2008 amounts to US\$ 34,465,970 and is shown by years in the Table 1 “Annual Summary”. The interest earned in 2008 amounts to US\$ 2,069,908.

### Summary data by type

- 4) The cumulative activities of UNIDO approved by the Multilateral Fund are listed in Annex II.

The following table shows their breakdown by types.

Type	US\$*	Share of portfolio in per cent	Number of projects
CPG (Country Programme Preparation)	815,000	0.2	11
DEM (Demonstration projects)	10,685,007	2.2	22
INS (Institutional strengthening)	4,776,760	1.0	25
INV (Investment projects)	429,231,335	90.4	502
PRP (Project preparation)	16,282,895	3.4	330
TAS (Technical Assistance)	11,977,422	2.5	81
TRA (Training)	1,249,459	0.3	23
<b>Total (excluding agency support cost)</b>	<b>475,017,878</b>	<b>100</b>	<b>994</b>

\* These figures are without adjustments, which are in total US\$ 14,643.

- 5) Table 2 “Summary of Data by Project Type”, shows approvals, adjustments and disbursements by type of project/activity.

- 6) Table 2 “Summary of Data by Project Type”, shows approvals, adjustments and disbursements by type of project/activity.
- 7) Disbursements by activity type and as percentage of activity allocations are as follows:

Type	US\$	Disbursement rate in per cent
CPG (Country Programme Preparation)	721,844	99
DEM (Demonstration projects)	8,558,423	84
INS (Institutional strengthening)	3,863,243	80
INV (Investment projects)	366,358,564	85
PRP (Project preparation)	9,851,271	70
TAS (Technical Assistance)	10,673,392	91
TRA (Training)	1,196,535	100
<b>Total (excluding agency support cost)</b>	<b>401,223,272</b>	<b>84</b>

- 8) In 2008 UNIDO’s overall disbursement rate (excluding agency support cost) was 84%, which is similar to the cumulative disbursement rate of previous years. It is to be noted that in 2008 UNIDO had an approval of US\$ 34,002,477 net of support costs and core unit funding. Out of this amount, US\$ 29.4 million were approved at the last two (55th and 56th) ExCom Meetings of 2008 and thus, considerable amount of these projects were not ready for substantial disbursement in 2008. The funds approved at the 55th and 56th ExCom Meetings represent 39.6 % of UNIDO’s undisbursed balance of US\$ 73.8 million. The disbursement rate of projects approved until the 55<sup>th</sup> ExCom amounts to 90 %.

In the reporting year, twelve new multi-year performance based projects were approved, while one National ODS Phase-out Plan for Iraq is under preparation. Thus, the total number of ongoing multi-year performance based agreements amounts to 58.

### Multi-Year Agreements

- 9) The twelve new performance based, multi-year projects approved for UNIDO’s implementation in 2008 are as follows:
- National Phase-out Plan for Yemen;
  - National methyl bromide phase-out plan for Mexico and Morocco
  - Terminal Phase-out Management Plan for Benin, Burundi, Cote d’Ivoire, Eritrea, Guinea, Honduras, Niger, Republic of Congo and Sao Tome and Principe, ;
- 10) As shown in Annexes II and III, UNIDO is implementing fifty-eight performance-based, multi-year agreements. Six of these agreements are national phase-out plans (NPPs) in Albania, Algeria, Bosnia & Herzegovina, Saudi Arabia, Sudan and Yemen, ten are related to the methyl bromide sector (China, Honduras, Lebanon, Libya, Mexico, 2 in Morocco, Syria, Turkey and Zimbabwe), four agreements in the solvent sector (DPRK, India, Nigeria & Pakistan), thirty three agreements are for CFC phase-out, in LVCs and non-LVCs, in Algeria (RMP), Argentina, Benin, Burundi, Cameroon (CFC+TCA), China (2), Congo, Cote d’Ivoire, Croatia, DPR Korea, Egypt, Eritrea, Guinea, Honduras, India, Iran, Kuwait, Libya, Macedonia, Madagascar, Mexico, Montenegro, Nigeria, Oman, Pakistan, Qatar, Romania, Sao Tome and Principe, Serbia, Syria and Venezuela. UNIDO has been implementing four production sector phase-out agreements in China, DPR Korea, Mexico and Romania; and last but not least the phase-out of CFCs in the use of tobacco-fluffing industry in China.

- 11) The total funds committed by the ExCom for these agreements amount to US\$ 168,453,034. From this amount, US\$ 153,505,853 has already been released (including approvals at the 57th ExCom Meeting in April 2008), out of which, US\$ 120,718,505 was disbursed (as of 31 December 2008).
- 12) The total ODS to be phased out through ongoing multi-year agreements amounts to 27,431 ODP tonnes of consumption; plus 17,778 ODP tonnes of production. Out of these amounts, 19,273 ODP tonnes of consumption and 16,690 ODP tonnes of production have been phased out by end 2007. The allowed ODS consumption for the reporting year was 6,844 ODP tonnes. Verified Article 7 consumption data for 2008 are not yet available in most of the countries. Based on preliminary data received from some of the countries, the actual consumption phase-out in 2008 amounted to about 2,401 ODP tonnes. Should the other countries phase-out more than their targets specified in their respective agreements; additional ODP phase-out would be achieved.
- 13) The majority of the multi-year performance based agreements under UNIDO's implementation are progressing well, 8 agreements have been successfully completed; the overall disbursement rate has steadily increased during the recent years (from 65% in 2006 to 72% in 2007 and 79% in 2008). In addition, fifteen tranches were submitted and approved by the ExCom in 2008.

Detailed information on these multi-year projects is to be taken from Annex III.

### Sector phase out by country

- 14) This section indicates sectors by countries for which total phase-out has been funded. Most of the activities are multi-year performance based projects, however there are some individual projects phasing out one or more substances in a particular sector. These activities are listed in the table below:

#	Country	Sector/Project	ODS	Multi-year yes/no	Phase-out in sector
1	Albania	National Phase-out Plan (NPP)*	All	Yes	Total
2	Algeria	Technical assistance to phase-out MeBr in pulses disinfections	MeBr	No	Total
3	Algeria	National phase-out plan	CFC/TCA	Yes	Total
4	Argentina	Solvent sector phase-out plan	CFC-113, CTC, TCA	No	Total
5	Argentina	CFC phase-out plan	CFC	Yes	Total
6	Bahrain	Training for low consumption of CTC/TCA	CTC/TCA	No	Total
7	Benin	TPMP	CFC	Yes	Total
8	Burundi	TPMP	CFC	Yes	Total
9	Burundi	Training for low consumption of TCA	TCA	No	Total
10	Bosnia & Herzegovina	NPP	All	Yes	Total
11	Bosnia & Herzegovina	Phase-out of Halon consumption	Halons	No	Total
12	Brazil	Phase-out of MB used in tobacco, flowers, ornamentals, strawberries and other uses	MeBr	No	Total

#	Country	Sector/Project	ODS	Multi-year yes/no	Phase-out in sector
13	Cambodia	Training for low consumption of MeBr	MeBr	No	Total
14	Cameroon	TPMP for the phase-out CFCs and TCA	CFC, TCA	Yes	Total
15	China	Domestic refrigeration*	CFC	Yes	Total
16	China	MDI phase-out	CFC	No	Total
17	China	National methyl bromide phase-out plan*	MeBr	Yes	Total
18	China	MeBr production phase-out plan	MeBr	Yes	Total
19	China	Refrigeration servicing sector CFC phase-out plan*	CFC	Yes	Total
20	China	Tobacco-fluffing	CFC	Yes	Total
21	Colombia	Technical assistance in the methyl bromide sector	MeBr	No	Total
22	Congo	TPMP	CFC	Yes	Total
23	Cote d'Ivoire	Commodities and storage fumigation	MeBr	No	Total
24	Cote d'Ivoire	Terminal aerosol project	CFC-12	No	Total
25	Cote d'Ivoire	TPMP	CFC	Yes	Total
26	Croatia	TPMP*	CFC	Yes	Total
27	Croatia	Training for low consumption of CTC	CTC	No	Total
28	Cuba	Soil fumigation, substrates, storage and structures	MeBr	No	Total
29	Dominican Republic	Soil fumigation (cut flower, melon and tobacco sectors)	MeBr	No	Total
30	DPR Korea	Production sector	CFC, CTC, TCA	Yes	Total
31	DPR Korea	Domestic refrigeration	CFC	Yes	Total
32	DPR Korea	Terminal CTC phase-out including process agents supplementary plan	CTC	Yes	Total
33	Egypt	Terminal solvent sector phase-out	CFC-113, CTC, TCA	No	Total
34	Egypt	National CFC phase-out plan	CFCs	Yes	Total excl. MDIs
35	Egypt	CFC phase-out in the MDI sector	CFCs	No	Total
36	Egypt	National phase-out of methyl bromide	MeBr	No	Total
37	El Salvador	Training for low consumption of MeBr	MeBr	No	Total
38	Eritrea	TPMP	CFC	Yes	Total
39	Ethiopia	Training for low consumption of CTC/TCA	CTC/TCA	No	Total
40	Georgia	Phase-out of methyl bromide for soil fumigation	MeBr	No	Total
41	Georgia	Halon banking management	Halon	No	Total

#	Country	Sector/Project	ODS	Multi-year yes/no	Phase-out in sector
42	Guinea	TPMP	CFC	Yes	Total
43	Honduras	Phase-out plan in the soil fumigation	MeBr	Yes	Total
44	Honduras	TPMP	CFC	Yes	Total
45	India	Refrigeration manufacturing*	CFC	Yes	Total
46	India	CTC Phase-out*	CTC	Yes	Total
47	Indonesia	Terminal solvent sector phase-out plan	CFC-113, CTC, TCA	No	Total
48	Iran	CFC phase-out*	CFC	Yes	Total
49	Iran	Phase-out of MeBr in soil fumigation in olive seedlings, fruit trees, nurseries and others	MeBr	No	Total
50	Iran	Terminal solvent sector umbrella project	CTC, TCA	No	Total
51	Iran	Phase-out of CFC consumption in the manufacture of aerosol MDIs	CFC	No	Total
52	Kenya	Technology transfer leading to MeBr phase-out in soil fumigation	MeBr	No	Total
53	Korea DPR	CFC phase-out*	CFC	No	Total
54	Kuwait	TPMP	CFC	Yes	Total
55	Kyrgyzstan	Halon phase-out programme	Halon	No	Total
56	Lebanon	Soil fumigation (strawberries)	MeBr	Yes	Total
57	Libya	NPP	All	Yes	Total
58	Libya	Phase-out of MeBr in horticulture: tomatoes, cucumbers, peppers and others*	MeBr	Yes	Total
59	Libya	Phase-out of halons in the fire fighting sector	Halon	No	Total
60	Macedonia	Fumigation	MeBr	No	Total
61	Macedonia	TPMP	CFC	Yes	Total
62	Madagascar	Training for low consumption of MeBr	MeBr	No	Total
63	Madagascar	TPMP	CFC	Yes	Total
64	Mexico	CFC production	CFC	Yes	Total
65	Mexico	CFC phase-out plan*	CFC	Yes	Total
66	Mexico	Umbrella project for terminal phase-out of CTC	CTC	No	Total
67	Mexico	Phase-out of CFC consumption in the manufacture of aerosol MDIs	CFC	No	Total
68	Mexico	National methyl bromide phase-out plan	MeBr	Yes	Partial
69	Moldova	Training for low consumption of MeBr	MeBr	No	Total
70	Montenegro	Terminal phase-out plan for CFCs	CFC/CTC	Yes	Total
71	Morocco	Phase-out of methyl bromide used in the strawberry sector	MeBr	No	Total

#	Country	Sector/Project	ODS	Multi-year yes/no	Phase-out in sector
72	Morocco	Phase-out of methyl bromide used in the tomato sector	MeBr	Yes	Total
73	Morocco	Training for low consumption of CTC/TCA	CTC/TCA	No	Total
74	Morocco	Methyl bromide in cucurbits and green beans	MeBr	Yes	Partial
75	Nicaragua	Training for low consumption of MeBr	MeBr	No	Total
76	Niger	TPMP	CFC	Yes	Total
77	Nigeria	CFC phase-out plan*	CFC	Yes	Total
78	Nigeria	Terminal solvent sector phase-out plan	CTC/TCA	Yes	Total
79	Oman	Training for low consumption of CTC	CTC	No	Total
80	Oman	TPMP	CFC	Yes	Total
81	Pakistan	Training for low consumption of MeBr	MeBr	No	Total
82	Pakistan	RMP	CFC	Yes	Total
83	Pakistan	CTC phase-out plan	CTC	Yes	Total
84	Qatar	TPMP	CFC	Yes	Total
85	Romania	Halon management programme	Halon	No	Total
86	Romania	Solvent sector phase-out plan	CTC	No	Total
87	Romania	Terminal phase-out plan of CTC process agents uses	CTC	No	Total
88	Romania	National CFC phase-out plan*	CFC	Yes	Total
89	Romania	Production sector phase-out plan	CFC/CTC/TCA/MeBr	Yes	Total
90	Sao Tome and Principe	TPMP	CFC	Yes	Total
91	Saudi Arabia	National Phase-out plan	CFC/CTC/TCA/Halon	No	Total
92	Serbia	CFC phase-out plan*	CFC	Yes	Total
93	Sudan	National CFC/CTC phase-out plan	CFC/CTC	Yes	Total
94	Syria	Phase-out of methyl bromide in the grain storage fumigation	MeBr	Yes	Total
95	Syria	Phase-out of methyl bromide in the soil fumigation	MeBr	No	Total
96	Syria	National CFC phase-out plan	CFC	Yes	Total
97	Tunisia	Training for low consumption of CTC/TCA	CTC/TCA	No	Total
98	Turkey	Solvent sector phase-out plan	CFC-113, CTC, TCA	No	Total
99	Turkey	Phase-out of methyl bromide used in protected tomato, cucumber and carnation crops	MeBr	Yes	Total
100	Uganda	Fumigation	MeBr	No	Total
101	Uruguay	Fumigation	MeBr	No	Total

#	Country	Sector/Project	ODS	Multi-year yes/no	Phase-out in sector
102	Venezuela	ODS phase-out plan	CFC	Yes	Total
103	Venezuela	Training for low consumption of MeBr, TCA	MeBr, TCA	No	Total
104	Yemen	Training for low consumption of TCA	TCA	No	Total
105	Yemen	National phase-out plan	CFC/TCA	Yes	Total
106	Zambia	Training for low consumption of CTC/TCA	CTC/TCA	No	Total
107	Zambia	Technical assistance for the phase-out of methyl bromide	MeBr	No	Total
108	Zimbabwe	Phase-out of MeBr in tobacco seedlings	MeBr	Yes	Total
109	Zimbabwe	Phase-out of MeBr used in grain fumigation	MeBr	Yes	Total

\* In cooperation with bilateral and/or implementing agencies

15) Information on funded ODP phase-out by region/country for ongoing projects is given in Table 3 “ODP Phase-out by Region, Country and Sector – Ongoing Projects”.

16) As per table 3a “ODP Phase-out by Region, Country and Sector – Completed Projects”, until end of the reporting period, UNIDO eliminated 53,109.0 tonnes (excluding partial phase-out of ongoing projects). ODP phase by sector is summarized in the below table.

Completed projects	
Sector	ODP tonnes
Aerosols	3,478.9
Foams	12,686.3
Fumigants	2,492.0
Halons	1,991.8
Other (Tobacco)	1,020.0
Process agents	820.4
Phase-out	2,929.2
Production	10,302.0
Refrigeration	15,307.8
Several	39.3
Solvents	2,041.3
<b>Total</b>	<b>53,109.0</b>

17) Partial ODP phase out is reported in Table 3b “Partial ODP Phase-out by Sector, Region, Country” and in Annex III. The partial phase-out achieved in 2008 is shown in the following table on a sectorial basis.

<b>Partial phase-out in 2008*</b>	
<b>Sector</b>	<b>ODP tonnes</b>
Aerosols	25.0
Fumigants	220.1
Process agents	50.0
Projects with PHA code	333.0
Refrigeration	32.8
Solvents	54.36.0
<b>Total</b>	<b>715.2</b>

\* Projects/tranches completed in 2008 are excluded

## **II. Project Completion since last Report**

### **ODP phased out since last report - investment projects**

- 18) As per Table 4, the cumulative ODP phase out through investment projects completed in the reporting period (1 January – 31 December 2008) amounts to 4,089.9 ODP tonnes (including production sector). In addition, 715.2 ODP tonnes were partially phased-out from ongoing projects. The details are shown in Table 3b, Table 4. Table 4 lists all investment, demonstration, recovery and recycling, technical assistance and institutional strengthening projects completed in 2008.
- 19) In 2008 no projects were cancelled under UNIDO's implementation.

### **Non-investment project completions since last report**

- 20) Since the last report, 19 non-investment projects, with an approved funding of US\$ 841,847 were completed; eight in Africa, two in Asia and the Pacific, three in Latin America and the Caribbean, and five in Europe.

## **III. Global and Regional Project Highlights**

### **Global Projects**

- 21) In 2008 one global project was approved for UNIDO, which is the core unit funding for 2009 in the amount of US\$ 1,857,636.

### **Regional Projects**

- 22) During the reporting period no new regional projects were approved. Implementation of the regional chiller programmes in Africa and Europe are ongoing and are progressing well. A detailed status report on these projects was submitted to the 56<sup>th</sup> ExCom's consideration.

### **Chiller Projects**

- 23) A funding window of US \$15.2 million for the chiller sector was approved at 45th Meeting. UNIDO submitted 2 proposals to the 47th and one to the 48th ExCom Meeting, and all three projects were positively considered. In total US\$ 2.4 million has been approved for UNIDO's implementation.
- 24) UNIDO is implementing chiller projects in three different regions:
- in Eastern Europe (Croatia, FYR of Macedonia, Montenegro Romania and Serbia);
  - in Africa (Cameroon, Egypt, Namibia, Nigeria and Sudan)
  - in West Asia (Syria)
- 25) By the end of 2008, 42 % of the approved funds have been disbursed and 74% of the funds have been implemented. The implemented projects have been successful in leveraging more co-funding than originally expected. In the case of Syria, the funds realized from co-financing significantly exceeded the originally foreseen amount (US \$270,000 compared to US \$27,165 planned).

- 26) The operational outcome of the projects is very positive. In Europe, all 8 chillers in Romania, Macedonia, Croatia and Montenegro have been delivered and installed by end 2008. Two chillers in Serbia have been delivered and installed. In Syria, all three chillers targeted were replaced in and retrofiting was in progress for the other four chillers.
- 27) The project in the Africa region is being co-implemented with France, Germany and Japan. Since approval, the project has been expanded to six countries from the original five. External funding was secured from the French Global Environment Facility (FGEF). The challenge to introduce to the FGEF the concept of linking the Kyoto and Montreal Protocols through the replacement of CFC based chillers with energy efficient, non-CFC based chillers could overcome with support of the French Environment Ministry. The project includes a component to elaborate a chiller replacement policy and replicate the results of the demonstration.

#### **IV. Performance Indicators**

##### **Agency's Business Plan Performance Goals**

- 28) The ExCom at its 41st Meeting approved new performance indicators in its Decision 41/93. These performance indicators were first applied in UNIDO's 2004 Business Plan. The ExCom at its 47<sup>th</sup> Meeting, by Decision 47/51, revised the weightings for quantitative performance indicators. The new weightings have been applied since the evaluation of the 2005-year performance. The targets and achievements for the year 2008 performance indicators approved during the 54th meeting of the ExCom are indicated below.

##### A1. Approvals

###### Number of annual programmes of multi-year agreements approved

- 29) In 2007, 12 new and 15 annual programmes of existing multi-year projects were approved, which represents 90 % achievement of the target set by the ExCom.

###### Number of individual activities (INV, RMPs, halon banks, TAS) approved vs. those planned

- 30) During 2008, 47 individual projects were approved against the target of 55. This represents 85 % achievement. The approvals include 4 institutional strengthening, 1 demonstration, 3 investment, 1 technical assistance and 38 HPMP projects.

##### A2. Implementation

###### Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved MY annual tranches vs. those planned

- 31) Milestone activities have been completed for altogether 27 MY performance-based agreements against the target of 19, thus, achieving 142 % performance. This includes the completion of milestones for the approved 15 MY annual tranches, plus 12 ongoing MY Agreements for which no more funding tranches are available.

ODS phased-out for individual projects vs. those planned in progress reports

- 32) 801.7 ODP tonnes were phased-out in 2008 from individual projects. This represents achievement of 105 % against the target of 762.9 ODP tonnes, set by the ExCom.

Project completion for investment and non-investment projects vs. those planned in progress reports

- 33) 20 investment and non-investment projects were completed in 2008 against the target of 19, which represents 105 % achievement of the target.

Policy/regulatory assistance completed vs. that planned

- 34) In 2008, policy/regulatory activities were completed as planned. The target was achieved at the level of 100 %

A3. Administrative

Speed of financial completion vs. that required per progress report completion dates

- 35) The target set by the ExCom was 12 months and in 2008 UNIDO managed to financially complete its projects within 7.8 months in average (for projects, which were completed 12 months ago between January and December 2007).

Timely submission of PCRs vs. those agreed

- 36) All PCRs were submitted on time as agreed with the Senior Monitoring and Evaluation Officer.

Timely submission of progress reports

- 37) UNIDO submitted its Progress Report 2008 before deadline, on 29 April 2009. This follows UNIDO's practice, whereby progress reports never reached the Secretariat later than the established deadline.

38) The performance indicators with the weightings are summarized in the following table:

**Performance indicators: Targets and achievements in 2008**

<b>Performance indicator</b>	<b>Weighting</b>	<b>Targets UNIDO BP 2008</b>	<b>Achievements as per P&amp;F Report 2008</b>	<b>P&amp;F vs. BP (remarks wherever applicable)</b>
<b>Approvals</b>				
No. of annual programmes of MY agreements approved vs. those planned	15	30	27	90 %
No. of individual activities (INV, RMPs, halon banks, TAS) approved vs. those planned	10	55	47	85 %
<b>Implementation</b>				
Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved MY annual tranches vs. those planned	20	19	27	142 %
ODS phased-out for individual projects vs. those planned in progress reports	15	762.9 ODP tonnes	801.7 ODP tonnes	105 %
Project completion for inv and non-inv projects vs. those planned in progress reports	10	19	20	105 %
Policy/regulatory assistance completed vs. that planned	10	9	9	100 %
<b>Administrative</b>				
Speed of financial completion vs. that required per progress report completion dates	10	12 months	7.8 months	On time
Timely submission of PCRs vs. those agreed	5	On time	100 % on time	100 % on time
Timely submission of progress reports & responses	5	On time	Before deadline (29 Apr 2009)	Before deadline

In addition to the above,

- UNIDO's approvals in 2008 amounted to US\$ 38,429,738 against the 2008 Business Plan of US\$ 47,937,000. This level of approval represents 80 % achievement.
- US\$ 25,346,405 was disbursed for projects under UNIDO's implementation against the target of US\$ 27,836,073, which represents 91% achievement
- At the end of 2008, 4,090 ODP tonnes were phased out for projects completed in 2008 and additional 715 ODP tonnes were partially phased-out through ongoing projects.

39) Based on the new performance indicator regime, the specific performance indicators for non-investment projects have been eliminated.

## Policy and legislative measures supported by UNIDO in 2008

As stated in UNIDO's 2008 Business Plan, UNIDO was planning to provide policy assistance to various countries, on the understanding that the countries concerned request UNIDO's support.

- 40) Albania: UNIDO continued providing support to the NOU of Albania in implementing the plan of action as contained in MOP Decision XV/26. Albania is in compliance with its Agreement of the ExCom and the 4th and 5th tranches were approved at the 54th ExCom Mtg.
- 41) Bosnia and Herzegovina: achieved compliance with the Annex B group III (methyl chloroform) and Annex E (methyl bromide) control measures, however, the Party's consumption of CFCs was inconsistent with its commitment contained in decision XV/30. Despite UNIDO's continuous follow-up, no progress was made in the implementation of the institutional strengthening project. The NOU has advised UNIDO that from 1st January 2009 no more CFC import licenses would be issued.
- 42) Congo DR: UNIDO in cooperation with the Government of Italy prepared and presented to the 51st meeting of the Executive Committee, a terminal umbrella project on behalf of the Democratic Republic of Congo addressing the consumption of ODSs in the solvents sector. The project addresses the use of CTC, TCA as well as CFC-113 and contains a phase out schedule that is in line with the plan of action adopted by the meeting of the Parties to aid the Government of the Democratic Republic of Congo in fulfilling its obligations. The project is implemented smoothly, the country is in compliance and the 2<sup>nd</sup> tranche of the project was approved at the 56<sup>th</sup> ExCom Meeting.
- 43) Guatemala: The first phase of the national methyl bromide phase-out plan implemented by UNIDO was successfully completed and the second phase is under preparation. The country is in compliance with its agreement of the ExCom.
- 44) Honduras: The first phase of the national methyl bromide phase-out plan implemented by UNIDO was successfully completed and the second phase is under implementation. The country is in compliance with its agreement of the ExCom.
- 45) Iran: The 50th meeting of the Executive Committee approved a project for the Islamic Republic of Iran, which addresses the phase out of CTC and TCA consumption in the solvent sector. The implementation of the project activities enabled the Party to meet its obligations for the phase out of CTC.
- 46) Libyan Arab Jamahiriya: Already in 2007, the Libyan Arab Jamahiriya fulfilled its commitments pursuant to decision XV/36, in which it was expected to establish, by 2004, a system for licensing imports and exports of ODS, including quotas.
- 47) Mexico: The 52<sup>nd</sup> meeting of the Executive Committee approved an umbrella project for terminal phase-out of CTC for implementation by UNIDO in Mexico. The implementation of the project will allow the Government of Mexico to sustain its current compliance with its CTC phase out obligations. CTC use will stop from 1 January 2009.
- 48) Pakistan: Decision XVIII/31 adopted Pakistan's plan of action to ensure the Party's prompt return to compliance with the Protocol's CTC control measures. The plan of action required Pakistan to reduce the CTC from 148.500 ODP-tonnes in 2005 to 41.800 ODP-tonnes in 2006. Pakistan has

quickly returned to compliance and reported that from 28 May 2007, Pakistan banned the import of carbon tetrachloride. The CTC sector phase-out plan is under implementation by UNIDO and the 3rd funding tranche was approved at the 54th ExCom Meeting.

- 49) Uruguay: Uruguay continues to be in advance of both its commitments under decision XVII/39 and its methyl bromide phase-out obligations under the Montreal Protocol. UNIDO is implementing a methyl bromide project in Uruguay which is expected to enable Uruguay to continue to meet its obligations contained in decision XVII/39. Furthermore, a technical assistance project was approved for Spain, with UNIDO as implementing agency, to introduce chemical alternatives in countries which have rescheduled methyl bromide phase out plan (Argentina and Uruguay)
- 50) Under the institutional strengthening projects regulatory and policy assistance targets were achieved through the progress in the implementation of the projects. During 2008 4 extensions were approved (Egypt, Oman, Montenegro, Turkmenistan) and six projects were completed (Egypt, Macedonia, Mexico, Montenegro, Oman, Romania) with the assistance of UNIDO. Furthermore, UNIDO provided assistance in maintaining the staff continuity and NOU mandate during re-organization of NOU in Serbia and in Montenegro as part of the Government restructuring process. 5 new extensions are under preparatory stage (Libya, Mexico, Qatar, Syria and Serbia).

### **Cumulative completed investment projects**

- 51) Since 1993, UNIDO's cumulative number of completed investment projects has grown to 502. Out of a total of US\$ 327,014,333 of approved MF financing for completed projects, 98 per cent of these funds were disbursed. The average number of months from approval to first disbursement was 9.1 months. The average number of months from approval to completion was 31.9 months. The cost effectiveness of completed projects is US\$ 6.44/kg. Table 5 "Cumulative completed investment projects by region, sector and implementation characteristics" illustrates more details, presenting information both on a regional and on a sectoral basis. The vast majority of completed investment projects have been implemented with disbursements of funds during implementation; only ten retroactively funded projects were implemented by UNIDO.

### **Cumulative completed non-investment projects**

- 52) Since 1993, UNIDO's cumulative number of completed non-investment projects, including the preparation of RMPs, is 162. Out of a total of US\$ 23,057,106 of approved MF financing, 99 per cent of funds have been disbursed. Except for twenty-five institutional strengthening projects, all UNIDO completed non-investment projects were objective-sensitive. Disbursement took place during implementation for all completed projects. Table 6 "Cumulative completed non-investment projects by region, sector and implementation characteristics" provides details according to geographic region and sectors.

### **Cumulative ongoing investment projects**

- 53) By the end of 2008, UNIDO's cumulative portfolio of ongoing investment, demonstration and recovery and recycling projects contained 86 projects. Of the US\$ 102,374,196 approved budget, 41 per cent has been disbursed. It took an average of 6.9 months from approval to first disbursement. The Africa region had 28 ongoing projects, Asia and the Pacific 25 ongoing projects, Europe 16 ongoing projects and Latin America and the Caribbean 17 ongoing projects. Table 7 "Cumulative ongoing investment projects by region, sector and implementation characteristics" illustrates the implementation characteristics among regions and sectors for UNIDO's ongoing investment projects.

The ongoing projects are objective sensitive and the disbursement of funds takes place during implementation. There are no retroactive projects.

### **Cumulative ongoing non-investment projects**

- 54) At the end of 2008, UNIDO's cumulative portfolio of ongoing non-investment projects, including preparation of RMPs, consisted of 22 projects. Out of a total of US\$ 5,723,493 approved funding, 39 per cent has been disbursed. Table 8 "Cumulative ongoing non-investment projects by region, sector and implementation characteristics" illustrates details, presenting the projects according to regions, sectors and types.

## **V. Status of Agreements and Project Preparation by Country**

### **Agreements to be signed/executed/finalized and ready for disbursing**

- 55) As soon as a project is approved by the Executive Committee and after having notified the respective authorities, UNIDO secures officially from the recipient country's Ozone and project authorities, validity/confirmation of basic project data, such as actual ODS consumption; validity of counterpart commitment, etc., since by this time, a substantial period of time might have elapsed from the time of formulation of the project, and the projects, in most cases, are adjusted as a result of the negotiations during the approval process. After this, wherever it is required by the Country, UNIDO prepares and signs with the Ozone Authorities the agreement of cooperation. UNIDO prepares detailed Terms of Reference (TOR) for services to be rendered under the project. The TOR and the list of potential suppliers are approved by the counterpart. The bidding and subcontracting takes place based on the mutually agreed TOR. The first payment is due upon entry into force of the first contract. The above-illustrated preparatory work explains, for multi-year programmes, investment, demonstration and recovery and recycling projects, the time elapsing between project approval and first disbursement.

### **Project preparation by country, approved amount and amounts disbursed**

- 56) As of the end of 2008, UNIDO had active project preparation funding amounting to US\$ 4,466,250 out of which US\$ 296,691 has been disbursed. The majority of these projects are the recently approved HPMP preparation activities amounting to US\$ 4,271,250, which explains the low level of disbursement. Of these, 14 preparatory assistance activities are under implementation in Africa, 17 in Asia and the Pacific, 10 in Europe and 5 Latin America & Caribbean.
- 57) The following table presents the list of 39 ongoing HCFC project preparation projects under UNIDO's implementation.
- 58) While maintaining an individual approach in the preparation of the relevant HPMPs in order to address the specific needs of the various countries, UNIDO is also implementing a common and coordinated overall approach in the preparation stage of the various HPMPs. In particular, UNIDO makes regular follow up meetings on the project implementation status in order to share the experiences and best approaches to implement and design the HPMPs.
- 59) Main purpose of this coordination activity is to verify the compliance with Decision ExCom 54/39 and to ensure that the implementation of an HCFC phase-out management plan (HPMP) include in a timely manner the stage one of the HPMPs, which would address the freeze in 2013 and the 10 per cent reduction in 2015. Stage one of the HPMP will be included within the framework of the over-

arching-strategy and will contain commitments to achieve the 2013 and 2015 HCFC control measures together with a performance-based system to enable the annual release of funding based on the completion of planned activities. Consideration will also be given to address properly the HCFC control measures in legislation, regulations and licensing systems. Furthermore, for countries that choose to implement investment projects in advance of completion of the HPMP, the approval of each project will result in a phase-out of HCFCs to count against the consumption identified in the HPMP.

- 60) Details of each individual HPMP under UNIDO's implementation are contained in Annex II of UNIDO's 2008 Progress and Financial Report, including also the most updated status of implementation of the various activities, including the selection of the strategy adopted in various countries with regard to the data collection and analysis as well as strategy planning.

<b>Country</b>	<b>Project Title</b>	<b>Approved Funding (US\$)</b>
Albania	Preparation of a HCFC phase-out management plan	30,000
Algeria	Preparation of a HCFC phase-out management plan	85,000
Argentina	Preparation of a HCFC phase-out management plan	78,000
Bahrain	Preparation of a HCFC phase-out management plan	45,000
Bosnia & Herzegovina	Preparation of a HCFC phase-out management plan	150,000
Cameroon	Preparation of a HCFC phase-out management plan	85,000
China	Preparation of a HCFC phase-out management plan (XPS foam sector)	84,000
China	Preparation of a HCFC phase-out management plan (Room air-conditioning sector)	500,000
Croatia	Preparation of a HCFC phase-out management plan	150,000
DPR Korea	Preparation of a HCFC phase-out management plan	50,000
Egypt	Preparation of a HCFC phase-out management plan	195,000
Honduras	Preparation of a HCFC phase-out management plan	115,000
India	Preparation of a HCFC phase-out management plan (transportation refrigeration and air-conditioning sectors)	70,000
Iraq	Preparation of a HCFC phase-out management plan	30,000
Jordan	Preparation of a HCFC phase-out management plan	150,000
Jordan	Preparation of a demonstration project for the conversion of HCFC to non-HCFC technology in the manufacturing of mini-split units at Petra Engineering	40,000
Kuwait	Preparation of a HCFC phase-out management plan	70,000
Libya	Preparation of a HCFC phase-out management plan	85,000
Macedonia, FYR	Preparation of a HCFC phase-out management plan	85,000
Mexico	Preparation of a HCFC phase-out management plan	104,250
Montenegro	Preparation of a HCFC phase-out management plan	85,000
Morocco	Preparation of a HCFC phase-out management plan	150,000
Niger	Preparation of a HCFC phase-out management plan	85,000
Nicaragua	Preparation of a HCFC phase-out management plan	85,000
Nigeria	Preparation of a HCFC phase-out management plan (additional funding)	20,000
Oman	Preparation of a HCFC phase-out management plan	100,000

<b>Country</b>	<b>Project Title</b>	<b>Approved Funding (US\$)</b>
Pakistan	Preparation of a HCFC phase-out management plan	90,000
Qatar	Preparation of a HCFC phase-out management plan	55,000
Saudi Arabia	Preparation of a HCFC phase-out management plan	130,000
Senegal	Preparation of a HCFC phase-out management plan	85,000
South Africa	Preparation of a HCFC phase-out management plan	195,000
Sudan	Preparation of a HCFC phase-out management plan	30,000
Syria	Preparation of a HCFC phase-out management plan	136,250
Turkmenistan	Preparation of a HCFC phase-out management plan	85,000
Tunisia	Preparation of a HCFC phase-out management plan	150,000
Turkey	Preparation of a HCFC phase-out management plan	195,000
Venezuela	Preparation of a HCFC phase-out management plan	173,750
Yemen	Preparation of a HCFC phase-out management plan	70,000
Serbia	Preparation of a HCFC phase-out management plan	150,000
	<b>TOTAL</b>	<b>4,271,250</b>

## Administrative Issues (Operational, Policy, Financial and Other Issues)

### Meetings attended

61) UNIDO attended/participated in the following meetings:

No.	Title of meeting	Place	Date
1.	Inter-Agency Coordination Meeting	Montreal, Canada	January 2008
2.	Regional Workshop on Phasing-out CFC in MDI	Langkawi, Malaysia	March 2008
3.	Joint Meeting of SEAP and South Asia Networks of ODS Officers, 'Roadmap to 2010'	Langkawi, Malaysia	March 2008
4.	Annual Meeting of the Regional Ozone Network for Europe & Central Asia	Tirana, Albania	March 2008
5.	HCFC Seminar organized by MLFS	Montreal, Canada	April 2008
6.	54th Meeting of the Executive Committee for the Implementation of the Montreal Protocol	Montreal, Canada	April 2008
7.	Inter-Agency Meeting for the finalization of the Annual Work Plan under the CTC Phase-out for 2008	New Delhi, India	April 2008
8.	2008 Joint Main Meeting for ODS Officers' Networks of African English-Speaking and West Asia Countries	Cairo, Egypt	May 2008
9.	Regional Workshop on Uses of Methyl Bromide Alternatives in the Date Sector	Cairo, Egypt	May 2008
10.	ECA contact group meeting on HCFC-related policies, guidelines and preparation of HCFC national phase-out plans	Ohrid, The Former Yugoslav Republic of Macedonia	May 2008
11.	HCFC Stakeholders Consultation Meeting	New Delhi	June 2008
12.	Open-ended Working Group Meeting of the Parties	Bangkok, Thailand	July 2008
13.	40th Meeting of the Implementation Committee under the Non-compliance Procedure of the Montreal Protocol	Bangkok, Thailand	July 2008
14.	Consultative Meeting on Essential Use Nominations (EUNs) for CFCs for MDI Manufacturing in Article 5 Countries beyond 2009	Bangkok, Thailand	July 2008
15.	55th Meeting of the Executive Committee for the Implementation of the Montreal Protocol	Bangkok, Thailand	July 2008
16.	2008 Compliance Assistance Programme (CAP) Advisory Group Meeting	Paris, France	September 2008
17.	2008 Meetings of South Asia Network of ODS Officers	Tokyo, Japan	September 2008
18.	II International Conference on Methyl Bromide Alternatives	Havana, Cuba	September 2008
19.	Inter-Agency Coordination Meeting	Montreal, Canada	October 2008
20.	Main Meeting of the Ozone Action Networks from Central America, South America, Mexico and the Caribbean	Santo Domingo, Dominican Republic	October 2008
21.	56th Meeting of the Executive Committee for the Implementation of the Montreal Protocol	Doha, Qatar	November 2008
22.	41 <sup>st</sup> Meeting of the Implementation Committee under the Non-compliance Procedure for the Montreal Protocol	Doha, Qatar	November 2008
23.	20 <sup>th</sup> Meeting of the Parties to the Montreal Protocol	Doha, Qatar	November 2008

No.	Title of meeting	Place	Date
24.	8 <sup>th</sup> Meeting of the Conference of the Parties to the Vienna Convention	Doha, Qatar	November 2008
25.	Inter-Agency Coordination Meeting on the preparation of HPMP	Buenos Aires, Argentina	December 2008
26.	Contact group meeting on TPMP implementation and assessment of awareness raising activities	Chisinau, Republic of Moldova	December 2008
27.	International Workshop on Promotion of Methyl Bromide Alternatives to Comply with its Phase-out	Tel Aviv, Israel	December 2008

### Implementing agency and other cooperation

- 62) Cooperation with UNDP and the World Bank: Several ongoing performance-based, multi-year agreements are being co-implemented with UNDP and the World Bank, while a number of HPMP preparatory activities in different countries and regions are being implemented together with UNDP and/or the World Bank.
- 63) Cooperation with UNEP: In addition to the national phase out plans and TPMPs approved before 2008 and are co-implemented with UNEP, 9 new TPMPs and 1 new NPP was approved in 2008 for joint implementation with UNEP. Furthermore, several HPMP preparatory activities are being jointly implemented by UNEP. UNIDO is also regularly attending and contributing to regional workshops and other specialized meetings organized by UNEP.
- 64) Participation in inter-agency meetings: As in the past years, UNIDO participated in all major inter-agency coordination meetings organized by either the Multilateral Fund Secretariat or by any of the other implementing agencies.
- 65) Cooperation with Bilateral Agencies: During 2008, altogether 6 bilateral projects were approved for UNIDO's implementation, four by Italy and 2 by Spain.

In cooperation with France, Germany and Japan a strategic demonstration project for accelerated conversion of CFC chillers in 5 African Countries (Cameroon, Egypt, Namibia, Nigeria and Sudan) is ongoing. The French and Japanese components are implemented by UNIDO with close cooperation with all participating bilateral agencies.

All bilateral projects under UNIDO's implementation are listed in the below table.

Bilateral Agency	Country	Project Title	Impact	Approved Funding (US\$)	Status
France	Regional Africa	Strategic demonstration project for accelerated conversion of CFC chillers in 5 African Countries (Cameroon, Egypt, Namibia, Nigeria and Sudan)	0.0	184,000	ONG
France	Morocco	Elimination de l'utilisation de bromure de methyle dans la production de fleurs coupées et de bananes	61.0	673,973	ONG
Germany	Egypt	Training of refrigeration technicians in the framework of the Refrigerant Management Plan of Egypt	0.0	251,623	COM

Bilateral Agency	Country	Project Title	Impact	Approved Funding (US\$)	Status
Italy	Cameroon	Total phase-out of methyl bromide used in stored commodities fumigation.	14.5	259,713	ONG
Italy	China	Sector plan CFC final phase-out: domestic refrigeration and domestic refrigeration compressors	181.0	1,788,991	COM
Italy	China	National phase-out of methyl bromide (phase II)	534.0	4,000,000	ONG
Italy	DR Congp	Umbrella project for terminal phase-out of ODS in the solvent sector	20.7	432,660	ONG
Italy	Mexico	National methyl bromide phase-out plan (first tranche)	70.0	500,000	ONG
Italy	Morocco	Phase-out of methyl bromide used as a soil fumigant in the production of green beans and cucurbits (first tranche)	15.0	310,000	ONG
Italy	Romania	Phase out of methyl bromide in horticulture	93.9	630,517	COM
Italy	Senegal	Terminal phase-out management plan for CFCs (first tranche)	0.0	220,000	ONG
Italy	Serbia	Terminal CTC phase-out project	2.6	49,324	ONG
Italy	Serbia	Replacement of CFC-11 with cyclopentane foam blowing agent and CFC-12 with HFC-134a refrigerant in the manufacture of domestic refrigerators and freezers at Obod Elektroindustrija	94.9	1,683,135	COM
Japan	Regional Africa	Strategic demonstration project for accelerated conversion of CFC chillers in 5 African Countries (Cameroon, Egypt, Namibia, Nigeria and Sudan)	0.0	700,000	ONG
Japan	China	Phasing out ODS in the production of compressors at Changshu Refrigerating Equipment Works	75.0	2,250,000	FIN
Japan	China	Refrigeration servicing sector CFC phase-out plan (first tranche)	0.0	1,000,000	COM
Japan	China	Refrigeration servicing sector CFC phase-out plan: second tranche	511.0	3,000,000	ONG
Japan	Indonesia	Phase out of CFC-11 by conversion to HCFC-141b in the manufacture of rigid polyurethane foam for insulating purposes at Bina Teknik Co.	22.8	117,889	COM
Japan	Indonesia	Phase out of CFC-11 by conversion to HCFC-141b in the manufacture of rigid polyurethane foam for insulating purposes at Aneka Citra Refrigeratama Co.	18.2	142,506	COM
Spain	Brazil	Total phase-out of MB used in tobacco, flowers, ornamental plants, strawberries and other uses	65.4	580,390	COM
Spain	Regional LAC	Technical assistance to introduce chemical alternatives in countries which have rescheduled methyl bromide phase out plan (Argentina and Uruguay)	0.0	147,400	ONG
Spain	Mexico	Technical assistance to comply with 2005 phase-out of 20% of methyl bromide	107.2	707,965	COM
		<b>TOTAL</b>	<b>1,887.2</b>	<b>19,826,724</b>	

## Other issues

- 66) In February 2008, UNIDO organized a seminar on alternative substances and technologies to phase out HCFCs in Article 5 countries and in Countries with Economies in Transition. Representatives from the MLF Secretariat, Donor countries, Ozone Units, TEAP, sister agencies, Greenpeace, refrigeration training centers, technology providers as well as chemical and equipment suppliers were participating in the workshop. As result of the seminar, UNIDO prepared an HCFC Guidebook which will be published during 2009.
- 67) The status of ongoing projects is described in Annex I of the Narrative. The success and timely implementation of these activities are crucial in the current compliance period. In order to ensure timely project completion of projects approved so far, and to facilitate compliance of the recipient countries with their MP obligations, in 2008, UNIDO has continued to practice the following initiatives, which supported successful project implementation:
- Regular missions to ozone offices and project sites are organized to monitor together with the ozone officers the implementation of national and/or sector phase-out plans and ongoing stand alone projects. UNIDO visits the respective ozone offices at least once a year. When required, UNIDO fields ad-hoc missions and requests support from the field representatives, who are in regular contact with the ozone office of the country to organize training, clear equipment from the customs, recruit national experts, undertake local procurement, process project travels, etc.
  - Good cooperation with the national ozone offices has continued and regular follow up of the implementation process is being done by the staff of the ozone office together with UNIDO's national and international consultants and project managers. This ensures that effective actions on critical issues such as resolving bottlenecks in site preparation, customs clearance, installation, commissioning and safety certification, monitoring of destruction of CFC-related equipment are taken in a timely manner.
  - UNIDO is regularly attending Regional Network Meetings and respective workshops providing additional support to our counterpart countries.
  - UNIDO's field representation is receiving regular training on Montreal Protocol issues.
  - One staff member is implementing Montreal Protocol projects directly from UNIDO's Regional China Bureau to provide on-site assistance in the Asia and Pacific Region enabling closer follow-up on project implementation. Based on the positive experience gained in China the practice will be introduced in other countries and regions.
  - Regular communication and interaction between regional and country offices about the implementation process has ensured the smooth flow of project activities. As in previous years, directors of UNIDO regional and country offices are regularly briefed at UNIDO HQs on ongoing and possible future activities. They are involved in the implementation process and are

following up the progress of the programmes. In turn, the representatives brief headquarter staff working in a specific country on the activities in the field and problems faced, if any.

- UNIDO also provides, when requested, support such as policy assistance, putting in place relevant legislation etc.

## **ANNEX I – Country Development Highlights**

### **Status of the implementation of approved activities**

#### **Albania**

##### **Phase-out of ODS**

The national ODS phase-out plan is implemented by UNIDO while UNEP is in charge of institutional strengthening. The delivered refrigeration demonstration unit for training of service technicians is operational. In order to ensure successful operation of the refrigerant recovery and recycling network component, it was agreed that first an enabling environment should be established by putting more emphasis on the reuse scheme, enforcement and code of practice before purchase and distribution of the equipment. Therefore, two national experts were recruited for preparing the code of practice as well as for updating the training manual and organizing training workshops. Purchase of equipment for vocational schools was initiated which was delivered in 2007 as requested by the Ozone Unit Manager. A joint mission with UNEP was fielded in 2007. Training workshops and training related to the equipment were planned, equipment for vocational schools were delivered, the training conducted and hence this component is completed. A national consultant was recruited and international experts provided advice on technical matter and legislation. Procurement of tools and equipment for service workshop was done in 2008 and under the third tranche R&R equipment was ordered and delivered. The fourth and fifth tranches were approved at 54th ExCom Meeting. Translation of manuals and training works are planned in 2009. Management and monitoring programme are ongoing.

#### **Algeria**

##### **1. Phase-out of CFCs**

The terminal umbrella project in the commercial refrigeration sector was approved by the Executive Committee at its 44<sup>th</sup> meeting. In 2007, the ownership of the foaming equipment, which was supplied to a company, which went bankrupt after the completion of an earlier individual investment project, was planned to be transferred to the eligible enterprises under the terminal umbrella project. Despite several attempts to transfer the equipment to the subject companies the legal process is still ongoing and with the agreement of the Executive Committee UNIDO proceeded with the purchase of the two foaming machines as originally planned in the project document. The delivery of the equipment is expected in April 2009. The request for proposal to supply services related for the training on the development of prototypes has to be re-announced, since none of the French institutes identified was interested in bidding for the project. The Ozone Office agreed to re-initiate the bid accepting that the training would be conducted in English with the assistance of a translator.

The first tranche of the National ODS Phase out Plan of Algeria was approved at the 53<sup>rd</sup> Executive Committee Meeting. Implementation of the project started beginning 2008. Survey of the refrigeration service sector as well as the foam sectors are being completed by the National Ozone Office (NOU). A national expert for the review and update of the ODS legislation was recruited. The bidding for the update of the refrigeration curricula and the preparation of the Code of Practice was completed. Award of contract is expected in February 2009. Investment activities in the refrigeration servicing and the foam sectors are planned in 2009. UNIDO is still waiting for the NOU's nomination for the PMU.

## **2. Phase-out of Methyl Bromide**

A technical assistance project to phase out methyl bromide in pulses disinfestations was approved by the 50<sup>th</sup> Executive Committee. The project has an impact of 1.6 ODP tonnes. A Study Tour for some Algerian technicians was done. Training and the last set of equipment was procured and the project was successfully completed in December 2008.

### **Argentina**

#### **1. Phase-out of CFCs**

The national CFC phase-out plan was approved at the 42<sup>nd</sup> ExCom Meeting and the first, second and third funding tranches were released. The fourth tranche will be submitted to be released at the 53<sup>rd</sup> ExCom Meeting for approval. The 2005 CFC consumption target was 2,047 ODP tonnes and 1,676 ODP tonnes were achieved. By end of 2006, about 5,000 technicians have already been trained. Servicing tools and R&R equipment were distributed among the eligible service shops. In 2007 training of technicians continued. Equipment for 2 refrigeration and 9 R&R centers were purchased. Technicians received tools and R&R equipment. End user sector survey continued. Detailed report was submitted to 53<sup>rd</sup> ExCom Meeting based on which the 4<sup>th</sup> tranche was released. The R&R and refrigeration centers started their operation in 2008. The end user sector activities were continued. Further training and equipment for technicians were provided. Training of customs officers was carried out. The before-mentioned activities will be continued in 2009 with an increased focus on the end-users sector and ODS destruction as well as monitoring of project performance.

#### **2. Phase-out of Methyl Bromide**

According to the revised agreement approved by the 45<sup>th</sup> Executive Committee, the project in strawberry, protected vegetables and cut flower production will be mainly implemented until 2010 leaving a small consumption till 2015. The project will continue with the training and secure the compliance with the phase out chronogram. The project is expected to be complete in January 2015. As per Decision 45/13, before the end of 2010, UNIDO and Argentina have to submit a full report on the implementation of the phase out plan together with the status report on the alternatives to methyl bromide in the strawberry sector available in Argentina. In addition, at that time, Argentine would consider the possibility of completing the phase out of methyl bromide earlier than 2015. The ban of import will be put in place once the total phase out is accomplished.

#### **3. Phase-out of Solvents (CFC, CTC and TCA)**

The plan for phase-out of ODS in the solvent sector was approved in December 2003 (41<sup>st</sup> ExCom). The approved date of completion is December 2009. UNIDO issued several contracts with local Argentinean companies, which provide for consultancy services on selection material of alternative solvents and conduction of compatibility tests. Two Solvent training workshops (i.e. for textile industry on the laboratory use) were conducted in December 2007. Identification of new or additional companies consuming ODS has been made in 2008 and activities for the phase out of TCA have been prepared. In 2009 laboratory uses were addressed. The project deals with TCA phase out in SSIs, therefore, one additional year for project implementation is needed.

### **Benin**

#### **Phase out of CFCs**

The TPMP was approved at the 55<sup>th</sup> ExCom Meeting and the first tranche was released. UNEP is the leading implementing agency while UNIDO is cooperating. In October 2008 a joint UNEP UNIDO mission was organized to Benin where the implementation modalities have been agreed on. Bidding for the procurement of equipment is ongoing and is expected to be complete by 2<sup>nd</sup> Quarter 2009. The second tranche will be submitted in 2009.

## **Bosnia & Herzegovina**

### **1. Phase-out of CFCs and TCA**

The national ODS phase-out plan was approved at the 41<sup>st</sup> ExCom Meeting. The first funding tranche was completed in December 2006 and the project is progressing with the second tranche.

Equipment to phase out TCA at the only ODS consuming company was ordered, delivered, installed and commissioned, resulting in a total phase-out of 1.1 ODP tonnes of TCA in 2006. The request for release of the third tranche was submitted and approved at the 52<sup>nd</sup> ExCom Meeting, following the receipt of the 2005 verification report on the ODS consumption. The training of trainers programme for the refrigeration service technicians is in progress. The section of training centers has been completed and the section of training equipment is being coordinated with the NOU.

### **2. Phase-out of Halons**

At the 42<sup>nd</sup> ExCom Meeting, a technical assistance project was approved to phase out the entire halon consumption in the country. Halon awareness and training workshop was carried out in February 2007. The annual activities for 2007 have been coordinated with the NOU, which is to confirm the selection of the beneficiary for halon R&R equipment. The scope of international and local equipment procurement was finalized. Bidding will start upon settlement of the issue with the customs clearance and VAT exemption.

## **Brazil**

### **Phase-out of Methyl Bromide**

The total phase-out of methyl bromide in tobacco, flowers, ornamentals, strawberries and other uses was approved at the 46<sup>th</sup> Meeting of the Executive Committee. Subcontract for training was awarded. The equipment (boilers and accessories) was delivered in 2006 and 2007. Training continued in 2007 and the remaining equipment was purchased and delivered in 2008. Additional 34 OPD tones have been phase out during 2008. The project was successfully completed in December 2008.

## **Burundi**

### **Phase-out of CFCs**

The TPMP was approved at the 55<sup>th</sup> ExCom Meeting and the first tranche was released. UNEP is the leading implementing agency while UNIDO is cooperating. During 2009 equipment will be purchased once UNIDO received guidance from the lead agency. Submission of the second tranche is expected in 2009.

## **Cameroon**

### **Phase-out of CFCs and TCA**

A terminal CFC/TCA phase-out management plan was approved at the 50<sup>th</sup> Executive Committee. The first and second funding tranches were released at the 50<sup>th</sup> and 54<sup>th</sup> ExCom Meeting respectively. In 2007 the PMU was established. The solvent component phasing out TCA has been successfully completed during 2008. In addition training of technicians and custom officers as well as a supplementary R&R programme was implemented. For 2009 additional training of technicians focusing on drop-in technologies and alternatives, extension of customs training, enforcement of legislation and public awareness activities.

## **China**

### **1. Phase-out of CFCs**

Under the domestic refrigeration sector plan, the conversion of all domestic refrigeration companies under this project was completed. Official commissioning also took place, which enables transfer of titles to the enterprises. Technical assistance to compressor manufacturing enterprises was undertaken in 2008. Ban of the use of CFCs in the sector was issued. A TÜV workshop based on plant inspections was performed in 2008. Technical assistance in safety and monitoring and verification of the project performance will continue until end 2010 to ensure sustainability of the project.

The refrigeration servicing sector plan was approved at the 44<sup>th</sup> ExCom. After completion of the first four tranches the fifth tranche was approved at the 56<sup>th</sup> ExCom Meeting. The verification of national consumption was submitted to and accepted by ExCom each year. The implementation plan is being completed without delay. During 2008 the training of technicians has continued and technicians were provided with recovery and service tools. Training centers for the domestic and industrial refrigeration were established and additional training of service technicians and purchase of equipment for the technicians as well as continued monitoring of activities is planned for 2009.

The sector plan for the entire phase out of CFCs in the MDI sector in China was approved at the 56<sup>th</sup> ExCom Meeting. Implementation modalities have been agreed upon in December 2008. Terms of Reference are under preparation and it is expected that a subcontract will be signed with the Chinese counterpart in 2<sup>nd</sup> Quarter 2009.

### **2. Phase-out of Methyl Bromide Consumption Sector**

The second phase of the national methyl bromide consumption phase out plan was approved at the 52<sup>nd</sup> ExCom Meeting, the second tranche of which was released at the 55<sup>th</sup> ExCom Meeting. Equipment procurement for the tobacco seedling sector was undertaken, in time for the crop season 2008. Subcontract for the ongoing tranche was issued in November 2008 and the final report is expected in July 2009.

### **3. Phase-out of Methyl Bromide Production Sector**

The sector plan for the methyl bromide production sector was approved at the 47<sup>th</sup> ExCom Meeting. A subcontract was issued to SEPA in March 2006. The training plan was implemented and a working

arrangement contract was signed with the counterpart companies. The following activities have been implemented in 2008: a) Monitor the methyl bromide production, b) inspect the manufacturers and perform technical verification, c) management of production quota and d) signed agreement with producers for compensation against production reduction quota achieved and verified. The 2006 and 2007 production quotas were verified during 2008 and compensated accordingly. The total production target agreed with the MLF had been achieved. The second tranche was approved at the 56<sup>th</sup> ExCom Meeting. Methyl bromide production audit and supplementary verification of the methyl bromide feedstock use for the period 2005-2007 have been completed. Production data are in line with the agreement.

## **Colombia**

### **Phase-out of Methyl Bromide**

A technical assistance project for the phase out of the remaining methyl bromide consumption in Colombia was approved at the 55<sup>th</sup> ExCom Meeting. In December 2008 an international consultant was recruited to work on the alternatives in cooperation with a national agro institute. After completion of the national survey awareness raising activities will be organized.

## **Congo, Rep. of**

### **Phase-out of CFC**

The TPMP was approved at the 54<sup>th</sup> ExCom with UNEP as lead implementing agency. Implementation modalities have been agreed upon. Technical specification for equipment purchase was prepared and upon clearance of the NOU procurement process will start.

## **Cote d'Ivoire**

### **1. Phase-out of Methyl Bromide**

The phase-out of methyl bromide in the commodities and storage fumigation sectors was approved at the 42<sup>nd</sup> ExCom Meeting. Procurement and delivery of the last set of equipment was done in 2008. The project was successfully completed in December 2008 phasing out the remaining consumption of 3.8 ODP tonnes.

### **2. Phase-out of CFCs**

At the 46<sup>th</sup> Executive Committee Meeting, a terminal aerosol sector project was approved for UNIDO with a total phase-out of 43.4 ODP tonnes of CFCs. Despite UNIDO's efforts to redeploy the equipment from Alkaloid, Macedonia (cancelled aerosol project) to COPACI, the redeployment was not successful. In addition, all attempts to restart implementation of the project have failed. The government requested cancellation of the project.

A TPMP was approved at the 45<sup>th</sup> ExCom Meeting with UNEP as lead implementing agency. Project implementation activities have been coordinated with the NOU and UNEP. Equipment will be purchased during 2009.

## **Croatia**

### **Phase-out of CFCs**

The complete phase out of CFCs as a result of the implementation of the terminal CFC phase-out management plan was achieved. Upon the request of the ExCom a verification audit was undertaken in 2008, which confirmed the successful implementation of the project. Monitoring activities are still ongoing to ensure the sustainability of the phase out.

## **Cuba**

### **Phase-out of Methyl Bromide**

At the 44<sup>th</sup> ExCom Meeting, a total phase-out project in soil, substrate, storage and structure fumigation was approved. Equipment including soil fumigation equipment was purchased and delivered in 2008. Training programme is ongoing and the project is planned to be complete in June 2009.

## **Democratic People's Republic of Korea**

### **1. Phase-out of CFCs**

The refrigeration sector phase-out plan for Korea was approved in 2003. The project is progressing with the second tranche. Remaining equipment for the conversion of the compressor factory is being ordered. Procurement of additional safety equipment is planned. The project is expected to be complete in June 2009.

UNIDO is in charge of the recovery and recycling component of the national CFC phase-out plan which was approved by the 47<sup>th</sup> Executive Committee and which is being implemented together with UNEP. Recovery and recycling equipment was purchased and additional tools and equipment are under procurement. The project is expected to be complete in December 2009.

### **2. Phase-out of CTC**

The CTC terminal phase-out plan was approved at the 41<sup>st</sup> ExCom Meeting. All projects in the Cleaning Solvent sub-sector and the four projects in the Process Agent sub-sector have been completed. Equipment was installed for the three pilot pesticide production plants. With respect to the glass-lined reactors the export of these goods to DPR Korea was not permitted. UNIDO reported to the 55<sup>th</sup> ExCom of this fact. The ExCom requested UNIDO to sell the equipment as specified in Decision 55/12 and report back to the 57<sup>th</sup> ExCom.

The supplementary plan for terminal phase out of CTC was successfully completed in December 2008.

## **Dominican Republic**

### **Phase-out of Methyl Bromide**

Under the phase-out project in melon, flowers and tobacco, agreements with methyl bromide consumer farmers have already been made. Most of the supplies (chemicals, substrates, small equipment) agreed upon with the farmers, were purchased. In the flowers sector, methyl bromide has already been phased out. During 2008 technical support was provided to the flower sector on the use of steaming and in horticulture in general. In 2009 additional training will be provided and the project is expected to be complete in June 2009.

## **Egypt**

### **1. Phase-out of CFCs**

The national CFC phase-out plan was approved at the 46<sup>th</sup> Executive Committee and the first three tranches were released. The first part of the refrigeration service equipment was purchased and delivered. The training programme of 1,200 technicians was accomplished. The industrial refrigeration and chillers as well as the remaining commercial refrigeration manufacturers were addressed providing a package of technical assistance, equipment, training services and eligible incentives aimed to achieve the phase out target. For 2009 an expedited plan of action for the implementation of the third tranche was agreed upon between the Egyptian authorities and UNIDO.

The phase-out of CFC consumption in the manufacture of aerosol metered dose inhalers was approved at the 50<sup>th</sup> ExCom Meeting. The project has an impact of 159.5 ODP tonnes and is expected to be complete by December 2010. UNIDO contract for equipment procurement and technology transfer in the value of USD 5.1 million was awarded. After the completion of the int. bidding the selected Contractor, i.e. Impopharma, Canada suddenly withdraw from the contractual commitments. Two new bidding have been started (one for equipment, another for technology transfer). In 2008 UNIDO procured filling equipment for the two Egyptian companies (ADCO and EIPICO). The selection of the technology provided was completed in November 2008. The pilot batches of the first MDI are being planned to achieve by December 2009.

### **2. Phase-out of Methyl Bromide**

The 20% methyl bromide reduction target was achieved in 2005 as a result of the implementation of the national phase-out plan for methyl bromide in horticulture and commodities fumigation. Completion of Phase 1 of this Project was completed in 2008 while the second phase was approved of the 56<sup>th</sup> ExCom Meeting. In 2009 additional equipment is going to be purchased for three horticulture companies and training will be provided in grafting.

## **Eritrea**

### **Phase-out of CFCs**

The TPMP was approved at the 54<sup>th</sup> ExCom Meeting with UNEP as the lead implementing agency. As per the ExCom's decision, no funding can be released until the confirmation of the report of the licensing system to the Ozone Secretariat had been received by the Fund Secretariat. Despite several follow-ups by UNEP and UNIDO the above confirmation has not yet been received. Thus, no activities could be implemented.

## **Georgia**

### **Phase-out of Methyl Bromide**

At the 47<sup>th</sup> ExCom Meeting, technical assistance for the elimination of methyl bromide in grain and storage facilities was approved for UNIDO. Equipment has been delivered and first training session was successfully undertaken in 2007. A second training session was organized and equipment installation was completed in 2008. Training activities are ongoing and the project is expected to be complete in December 2009.

## **Guatemala**

### **Phase-out of Methyl Bromide**

In 2008 the project continued supporting the melon growers in the elimination of the methyl bromide and the first phase was successfully completed in December 2008. The second phase will be submitted during 2009.

## **Guinea-Conakry**

### **Phase-out of CFCs**

The TPMP was approved at the 55<sup>th</sup> ExCom Meeting with UNEP as lead implementing agency. Technical specification for equipment purchase has been prepared and once UNIDO received the confirmation of NOU the bidding will start. The second tranche is expected to be submitted in 2009.

## **Honduras**

### **1. Phase-out of Methyl Bromide**

A new phase-out schedule was approved by the 47<sup>th</sup> Executive Committee for the methyl bromide sector plan in order to reach the 20 per cent reduction target by 2008 giving time to further develop and softly apply the new technology. Phase I of the programme was completed in December 2006. Phase II was approved by the 50<sup>th</sup> ExCom and the first, second and third funding tranches were released. Equipment for grafting and for laboratory was purchased. All equipment have been installed and commissioned and are fully operational. Training components will continue in 2009.

### **2. Phase-out of CFCs**

The TPMP was approved at the 55<sup>th</sup> ExCom Meeting with UNEP as the lead implementing agency. An experienced national consultant is working on a national survey on the remaining CFC consumption. Furthermore, a technical institution is being trained in drop-in technologies with hydrocarbon refrigerant.

## **India**

### **Phase-out of CTC Consumption and Production Sectors**

The majority of the enterprises have been converted. However, the installation of equipment in a few companies is still to be undertaken in 2009. We expect project completion in 2009.

## **Indonesia**

The methyl bromide and the terminal solvent project were successfully completed in 2008.

### **Iran**

#### **1. Phase-out of CFCs**

Under the activity on phasing out ODS in manufacturing of flexible PU slabstock foam through the use of liquid CO<sub>2</sub> blowing technology at Bahman Plastic Co, the installation did not take place because the enterprise did not provide the supplier with information required prior to the installation despite numerous follow ups. The project is expected to be automatically cancelled at the 57<sup>th</sup> ExCom meeting since no progress has been made in two consecutive ExCom Meetings. The activity on phasing out of ODS in the manufacture of flexible slabstock foam through the use of LCD blowing technology at Esfanj Shirvan Co. The project was successfully completed in December 2008.

The national CFC phase-out plan was approved at the 41<sup>st</sup> Meeting of the ExCom in December 2003. During 2008 monitoring activities have been continued. One monitoring cell was established in each of the provinces. The project was successfully completed in April 2008.

The CFC phase out project in the MDI sector was approved at the 52<sup>nd</sup> ExCom Meeting. The TOR for technology transfer has been prepared and an international bidding started. In 2008 UNIDO procured filling equipment for the Iranian company Sina Darou. The technology provided was selected in November 2008. The pilot batches of the first MDIs are planned to be achieved in December 2009.

#### **2. Phase-out of Methyl Bromide**

The 47<sup>th</sup> Executive Committee Meeting approved a total phase-out project in soil fumigation for UNIDO. The impact of the project is 14.4 ODP tonnes. Boilers were purchased in 2006. The project was completed in December 2008.

#### **3. Phase-out of Solvents (CTC and TCA)**

A terminal solvent sector umbrella project was approved by the 50<sup>th</sup> Executive Committee Meeting. The project deals with the phase out of 52.7 ODP tones of CTC and TCA. It covers 6 small-scale industries. The CTC/TCA phase out in the companies has been achieved in 2008. All equipment have been procured and installed. Technical monitoring activities and two solvent training workshops as well as the preparation of solvent leaflets are planned to be conducted in 2009.

## **Kenya**

### **Phase-out of Methyl Bromide**

At its 53<sup>rd</sup> Meeting, the ExCom approved the request by the Government of Kenya to transfer responsibility for implementation of all remaining activities associated with the completion of the phase-out of methyl bromide in the cut-flower sector from UNDP to UNIDO.

The project will phase-out all soil uses of MB in Kenya and commits to permanently sustaining the consumption levels through the use of import restrictions and other policies it may deem necessary. During 2008 a UNIDO mission was undertaken to transfer the project team from UNDP to UNIDO and to discuss the plan of action. Most items were purchased and the training programme is underway. Progress report was submitted to the Executive Committee.

## **Kuwait**

### **Phase-out of CFCs**

The TPMP was approved at the 52<sup>nd</sup> meeting of the Executive Committee and approved in July 2007. The first tranche for a TPMP for Annex A group I substances was released in July 2007. The Annual Implementation Programme for 2007/2008 was prepared and agreed upon with the NOU and UNEP. Recovery and recycling equipment were procured. Training material for MAC retrofits was developed. The scheme for the implementation of a MAC retrofit incentive programme was agreed upon. The project is expected to be complete by June 2009.

## **Lebanon**

### **Phase-out of Methyl Bromide**

The methyl bromide phase-out project follows the ratification of the Montreal Protocol by the Government of Lebanon, which had planned a schedule for phasing out Ozone Depleting Substances (ODS). The Ministry of Environment in collaboration with UNIDO implements the project funded by the Multilateral Fund.

At its 52<sup>nd</sup> meeting, the Executive Committee approved the extension of project activities until the end of 2008 given the difficulties encountered by the project as a result of July 2006 war. The 2006 MeBr phase out target has been rescheduled over 2007 (5 ODP tons) and 2008 (4 ODP tons). Equipment and chemicals were delivered in 2008. Contracts with a national consultant as well as site engineers have been extended to ensure full implementation of the alternative technologies. A few public awareness publications are being prepared and monitoring activities are ongoing in 2009.

## **Libya**

### **1. Phase-out of CFCs**

The third tranche of the national CFC phase-out plan was released at the 54<sup>th</sup> ExCom Meeting. Technical specification on service equipment for 50 service shops was prepared and agreed upon with the NOU. Procurement is underway and offers are being evaluated. Delivery of equipment is expected in 2<sup>nd</sup> Quarter 2009. Training of service technicians will be organized after delivery of the respective equipment.

### **2. Phase-out of Methyl Bromide**

At the 47<sup>th</sup> Executive Committee Meeting, a phase-out project in horticulture was approved for UNIDO. The second tranche under Spanish contribution has also been released at the 56<sup>th</sup> ExCom Meeting and is under implementation by UNIDO. The Greenhouse is under installation. The report on the 2007/2008 activities was received and the 2009 plan is under finalization.

### **3. Phase-out of Halons**

The plan to phase out the import and net consumption of halons in the fire-fighting sector was approved by the 47<sup>th</sup> Executive Committee. The project has a total impact of 653.9 ODP tonnes. The initially identified entity to host halon banking equipment failed to obtain approval by the Ministry of Industry. A new entity (iron and steel company) has been suggested and the suitability is verified by the Government. Without the appointment of such entity no project activity can start.

#### **Macedonia, FYR**

##### **Phase-out of CFCs**

The terminal phase-out management plan was approved at the 45<sup>th</sup> Executive Committee. The fourth tranche was released at the 56<sup>th</sup> ExCom Meeting. Monitoring and reporting activities on the import control and utilization of R&R equipment as well as operation of R&R and training centers are progressing according to the original schedule.

#### **Madagascar**

##### **Phase-out of CFCs**

The TPMP was approved at the 52<sup>nd</sup> ExCom Meeting with UNEP as lead implementing agency. The second tranche was released at the 56<sup>th</sup> ExCom Meeting. The plan of action for the implementation of the second tranche was reviewed and agreed upon with the government. The Terms of Reference for the supply of equipment were prepared and are under review of the government. The project is expected to be complete in November 2009 as originally planned.

#### **Mexico**

##### **1. Phase-out of Methyl Bromide**

The technical assistance project was completed in June 2008 helping Mexico to achieve the 20% reduction target. Subsequently at the 54<sup>th</sup> ExCom Meeting the national methyl bromide phase out plan was approved. The project started its implementation. Agreements with the farmers have been drafted and are expected to be signed in due course. The Terms of Reference for the equipment purchase are under preparation according to the agreement.

##### **2. Phase-out of CFC Consumption Sector**

The national CFC phase-out plan was approved in 2004. Large-scale training continued, the technicians received recovery and service tools after successful completion of training. Equipment for 14 R&R centers was purchased. These centers were put into operation in 2008. In 2009 additional training of technicians and phase out in the end-user sector is planned. Monitoring of implementation and verification of performance is continuing until end 2010 to ensure sustainability.

The CFC phase out project in the manufacture of metered dose inhalers was approved at the 53<sup>rd</sup> ExCom Meeting. Two biddings for the equipment procurement and for technology transfer started in 2008. In 2008 UNIDO procured filling equipment for the Mexican company Salus. The selection of technology provider was completed in November 2008. The pilot batches of the first MDIs are planned by December 2009.

### **3. Phase-out of CFC Production Sector**

The CFC production was closed on 25 August 2005. Full phase-out took place. The CFC consumption monitoring system is ready and operational. Annual verification audits have taken place confirming the complete phase out of CFC production. At the 56<sup>th</sup> ExCom it was decided that no further external audit is required. Further monitoring, policy and awareness measures will be implemented in 2009.

### **4. Phase-out of Solvents (CTC)**

The umbrella project for terminal phase-out of CTC was approved at the 52<sup>nd</sup> ExCom Meeting. Bidding for equipment procurement was completed in October 2008. Equipment is being manufactured and installation is planned for 2009. The company Mexichem will stop the use of CTC from 1 January 2009 to prepare premises for new equipment.

## **Montenegro**

### **Phase-out of CFCs**

The TPMP was approved at the 53<sup>rd</sup> ExCom Meeting. The implementation of the project started. The implementation modalities have been agreed upon. Equipment for training purposes was purchased. Project Management Unit was established and trained.

## **Morocco**

### **Phase-out of Methyl Bromide**

The sixth tranche of the phase-out project for soil fumigation in the tomato sector was released in 2008. In 2008 the project was implemented according to the work plan. Expected reduction of methyl bromide consumption was 68.4 ODP tones.

The methyl bromide phase-out project in the production of green beans and cucurbits was approved at the 56<sup>th</sup> ExCom Meeting as the final funding of the methyl bromide phase out in Morocco. In February 2009 a UNIDO mission is planned to Morocco to agree on the implementation modalities and to set up an action plan. In 2009 the recruitment of national consultant is planned to undertake training activities. Furthermore, equipment and chemicals will be provided.

## **Niger**

### **Phase-out of CFCs**

The TPMP was approved at the 54<sup>th</sup> ExCom Meeting with UNEP as lead implementing agency. Implementation modalities have been agreed upon. Technical specifications for equipment purchase were prepared and agreed upon with UNEP and NOU. The procurement process was initiated and the delivery of equipment is expected in 2<sup>nd</sup>/3<sup>rd</sup> Quarter 2009.

## **Nigeria**

### **Phase-out of Solvents**

The terminal ODS phase-out umbrella project was approved at the 43<sup>rd</sup> ExCom Meeting to phase out 166.7 ODP tonnes of CTC and 31.3 ODP tonnes of TCA. The fourth and last tranche was released at the 52<sup>nd</sup> ExCom Meeting. In 2008 solvents were purchased, equipment was distributed and training of the

national staff was conducted. In 2009 workshop for small-scale solvent users is under preparation. A team of national experts will be recruited to provide technical assistance to solvent users. Public awareness activities are continued. Enforcement of the legislation is planned.

## **Oman**

### **1. Phase-out of CFCs**

The TPMP project was approved at the 52nd ExCom. During 2008 equipment was delivered, training on good practices was completed. Training material for chiller retrofits was developed. The training is expected to take place in 1<sup>st</sup> Quarter 2009. The tranche is expected to be complete in April 2009 and the second tranche will be submitted.

### **2. Phase-out of Halons**

The halon consumption phase-out project was transferred from the World Bank to UNIDO at the 46<sup>th</sup> ExCom Meeting. The halon awareness and training workshop has been carried out. Selection of halon R&R equipment has been completed. International bidding for R&R equipment was completed and purchase order was issued. Equipment for local procurement is being coordinated with the NOU. Expected completion is 2009.

## **Pakistan**

### **1. Phase-out of CFCs**

The implementation of the RMP was successfully completed in September 2008.

### **2. Phase-out of Solvents and Process Agents (CFC and CTC)**

The process agent project at Himont Chemicals Ltd., was successfully completed in October 2008.

The national CTC phase-out plan was approved at the 41<sup>st</sup> Meeting of the ExCom. The third tranche was released at the 54<sup>th</sup> ExCom Meeting. In 2008 public awareness activities continued and purchase of equipment for three metal cleaning companies was finalized. Commissioning is being organized. Institutions for training and technology demonstration have been identified and purchase of equipment for these institutions is underway. Import control, monitoring and reporting is progressing.

## **Qatar**

### **Phase-out of CFCs**

A TPMP was approved at the 53<sup>rd</sup> meeting of the ExCom. The first tranche for the TPMP was approved in November 2007 and the project is planned to phase out of 3 ODP tonnes. The Annual Implementation Programme for 2008 was prepared and agreed upon with UNEP and NOU. Equipment for investment and non-investment activities were purchased by UNIDO. Training material on retrofitting of MACs and domestic refrigeration was prepared. Training will take place in 1<sup>st</sup> Quarter 2009 and second tranche will be requested.

## **Regional Africa**

### **1. Phase-out of CFCs**

The strategic demonstration project for accelerated conversion of CFC chillers was approved at the 48<sup>th</sup> ExCom for five African countries, i.e. Cameroon, Egypt, Namibia, Nigeria and Sudan. In order to secure the associated external resources, UNIDO drafted a project concept, which was submitted to the Steering Committee of the FGEF in December 2006. The project concept was endorsed and the chiller project was included in the FGEF pipeline for 2007. To date, the external resources were mobilized since the project was approved by the FGEF Steering Committee. UNIDO and the cooperating partner agencies received the clearance from the Secretariat for disbursement of the funds under the project. A Steering Committee at country level was established in Egypt, while the other countries are working on the establishment of their respective steering committees. Each country prepared a strategy for dealing with the chiller sector. Activities for chiller replacement will start in March 2009.

## **2. Phase out of methyl bromide**

The regional demonstration project on alternatives to the use of methyl bromide for treatment of high moisture dates for Algeria and Tunisia was approved at the 54<sup>th</sup> ExCom Meeting. During 2008 subcontract was made with the local dates producer and laboratory in Algeria to undertake treatment and tests of dates. Due to difficulties in supplying the chemicals to the country the first laboratory tests were undertaken in France. The tests showed positive results. The detailed analysis is under preparation. During 2009 large-scale test are planned for both countries.

## **Regional Europe**

### **Phase-out of CFCs**

The demonstration project on the replacement of CFC centrifugal chillers was approved at the 47<sup>th</sup> ExCom for Croatia, Macedonia, Romania, Serbia and Montenegro. All eight chillers in Romania, Macedonia, Croatia and Montenegro and well as two other chillers in Serbia have been delivered and installed. UNIDO is waiting for the Secretariat's approval to disburse funding for the remaining two chillers in Serbia. UNIDO submitted a detailed report on the implementation of the chiller project to the 56<sup>th</sup> ExCom Meeting.

## **Romania**

### **1. Phase-out of CFCs**

At the 45<sup>th</sup> Executive Committee, a national CFC phase-out plan was approved for UNIDO. The third tranche was released at the 51<sup>st</sup> ExCom Meeting. In June 2008 a joint mission with Sweden was undertaken. Update of the vocational schools was initiated, while in July and August 2008 the PMU carried out a survey of schools educating students in refrigeration and air-conditions. The training of teachers took place in September 2008 and two teachers from each of the seven schools identified in the survey participated in the training.

### **2. Sector plan for production sector (fourth tranche)**

The fourth tranche of the sector plan for production sector was approved in view of the progress already achieved in establishing the CTC incinerator in Chimcomplex and the completion of the removal of the capability to produce CTC at Oltchim. Since the CTC production has already been closed, UNIDO is continuing with the monitoring activities and annual verification audits.

### **3. Phase-out of CTC in the Consumption and Production of Process Agent Uses**

A terminal phase-out management plan for phase out of process agent uses was approved at the 50<sup>th</sup> ExCom Meeting. The process design was made by UNIDO and project equipment was procured. Three biddings have been conducted to identify a local consultancy company to make a plant design documentation, which is needed for plant registration by Romanian authorities. However, UNIDO could not identify such a company. It was agreed with the Romanian authorities to change the Terms of Reference to include all remaining activities including plant design, equipment installation, piping, etc., and carry out a new bidding. There is no use of CTC by Oltchim, DEHPC is being purchased.

#### **4. Phase-out of Halons**

The halon management programme was successfully completed in June 2008.

### **Sao Tome and Principe**

#### **Phase out of CFCs**

TPMP was approved at the 54<sup>th</sup> ExCom with UNEP as lead implementation agency. The implementation modalities have been agreed upon. The project activities started with the training of technicians in the use of hydrocarbon as drop-in. Equipment required for the drop-in was purchased for the technical institution. National consultant was recruited for the coordination of project activities. Three technicians were trained on the recovery and recycling issues. The second tranche is expected to be submitted in 2009.

### **Saudi Arabia**

#### **Phase-out of CFCs**

The national phase out plan was approved at the 53<sup>rd</sup> ExCom Meeting with UNIDO as lead implementing agency and UNEP as cooperating agency. The Annual Implementation Programme for 2008 was prepared and agreed upon with UNEP and the Government. All equipment was procured in 2008 and delivery is expected in 1<sup>st</sup> Quarter 2009. Two technical assistance workshops were organized for the manufacturing sectors. In addition UNIDO contracted a company for the establishment of a data base for reporting and monitoring of the NPP implementation.

### **Serbia**

#### **Phase-out of CFCs**

The national CFC phase-out plan was approved for Serbia and Montenegro at the 43<sup>rd</sup> ExCom Meeting. Since Serbia and Montenegro have separated in 2006, a revised agreement for Serbia was approved at the 50<sup>th</sup> ExCom Meeting. There is a delay in the completion of the aerosol project, which was caused by the change of the country's management. In November 2008 nomination of the Ozone Officers has been officially received by UNIDO. UNIDO mission was undertaken in December 2008 to speed up the implementation and to agree on an accelerated work plan. New training institutions will be selected and the Terms of Reference to carry out conversion at foam companies have been prepared and contractor was selected after bidding. New equipment is expected in 1<sup>st</sup> half of 2009. Local contract for pre-installation works and local purchase of instruments and services is under preparation.

## **Sudan**

### **Phase-out of CFC and CTC**

The national CFC and CTC phase-out plan was approved at the 44<sup>th</sup> ExCom Meeting. The third tranche was approved 53<sup>rd</sup> ExCom Meeting. Training of technicians has continued with two training courses for 16 trainers operating the R&R centers. Upgrade of national R&R scheme was performed. Technical specification to purchase service equipment for newly identified/certified training centers will be prepared in 2009. National consultant was recruited to support the NOU and coordinate implementation activities.

## **Syria**

### **1. Phase-out of CFCs**

The national CFC phase-out plan was approved at the 49<sup>th</sup> Executive Committee meeting. The second tranche was released at the 56<sup>th</sup> ExCom Meeting. The first bidding for the equipment purchase was unsuccessful and is now being repeated. The receipt of the offers is expected for end of February 2009. The country's monitoring system is under establishment. The component update of the vocational schools is ongoing.

The demonstration project on the replacement of CFC centrifugal chillers was approved at the 47<sup>th</sup> Executive Committee. External resources were secured and disbursement of funds was confirmed by the Secretariat. Three chillers for the Le Meridien Hotel were delivered and installed in 2008. The retrofitting of the four chillers at the El-Basel hospital is in process. The project is expected to be complete in 2<sup>nd</sup> Quarter 2009. .

### **2. Phase-out of Methyl Bromide**

The phase-out of methyl bromide in grain storage is progressing with the third tranche. Phosphine generators and additional equipment for phosphine application have been delivered and necessary training was provided. Purchase of additional equipment and contract with national expert will be extended.

The national phase-out plan in soil fumigation was approved at the 49<sup>th</sup> Executive Committee. National institution was selected and contracted. Grafted plants were distributed to farmers. Additional equipment will be purchased, contracts for national experts will be extended and additional training will be provided to farmers in 2009.

## **Turkey**

### **Phase-out of Methyl Bromide**

Phase-out of Methyl Bromide for Soil Fumigation in Protected Horticulture and Cut-flower Production in Turkey was approved in 2001, but was started only from the beginning of 2003 and finally received considerable impetus at the end 2004-2005 and also in 2006.

The aim of this project was to phase out 293,4 ODP tons of methyl bromide used in protected horticulture and cut-flower production, introducing suitable alternative methods and minimizing economic losses due to the ban on methyl bromide. Three steam machines and one soil-less culture system were provided to end users who were also trained by suppliers.

Training activities included, nine training programs (3-5 days) given by international experts on soil-less culture, IPM for cut-flower growers, and trust tomato and pepper crop management for the horticulture sector, distributing leaflets, on farm trainings, extension personnel trainings, radio and TV programs. In total, 700 vegetable and cut flower growers attended the training programs. Grafting trials for the second year were finished and will be followed with additional trials for further confirmation of the results. Some awareness raising activities and finalization of publications are still outstanding.

## **Uruguay**

### **Phase-out of Methyl Bromide**

An extension of the phase-out agreement was approved at the 46<sup>th</sup> Executive Committee in July 2005. According to this agreement, total phase-out of methyl bromide will be achieved by January 2013. Subcontractor (INIA) continued training and assistance to farmers. In one region, methyl bromide has already been phased out. In 2007, awareness activities to convince farmers to eliminate methyl bromide in one of the remaining regions were conducted. Some test on Iodure methane, which could be a convincing alternative were finalized. The test with Iodure methane gave very good results. Monitoring of the phase out will be continued until the complete phase out is achieved.

## **Venezuela**

### **Phase-out of CFCs**

The national CFC phase out plan was approved at the 42<sup>nd</sup> ExCom Meeting. Three tranches were successfully completed and the fourth tranche was submitted to the 56<sup>th</sup> ExCom consideration. Since additional verification was requested by the ExCom, the tranche is being submitted to the 57<sup>th</sup> ExCom. The recovery and recycling scheme is fully operational. Reclaiming equipment was installed in the premises of PRODUVEN and is operating as part of the R&R system. At present, 4,400 technicians have been trained and 3,890 technicians were trained and certified. A chiller programme will be implemented based on an incentive programme and revolving fund. The data monitoring and reporting system and the training and certification of technicians will continue in 2009.

## **Yemen**

### **Phase out of CFCs**

The national ODS phase out plan for Yemen was approved at the 55<sup>th</sup> ExCom Meeting with UNEP as lead implementing agency. The Executive Committee decided to convert the foam companies to HCFC-141b technology due to the fact that there was an urgent need to phase out CFCs by 2010. Yemen will be eligible for funding for second stage conversion for the companies covered by the NPP. The equipment for the refrigeration manufacturing and servicing components of the project was purchased at the end of December 2008. A specialized foam expert was recruited and visited Yemen in early December 2008 to assess the situation of the 10 commercial refrigeration companies and study the feasibility of implementing hydrocarbon technology. The Government is considering merging 5 companies and providing them with Hydrocarbon machinery, while the rest will be supplied with HCFC machinery.

## **Zambia**

### **Phase out of methyl bromide**

A technical assistance project for the complete phase out of methyl bromide in the tobacco, cut-flowers, horticulture and post harvest uses was approved at the 56<sup>th</sup> ExCom Meeting. Working arrangement on implementation modalities is under finalization between UNIDO and the government. In 2009 activities will be focused on training in the tobacco and horticulture sectors. Training will be organized and relevant equipment will be distributed to the farmers.

## **Zimbabwe**

### **Phase-out of Methyl Bromide**

Two methyl bromide phase-out projects in grain fumigation and tobacco seedlings were successfully completed in 2008.

**UNIDO Progress and Financial Report 2008**  
**Table 1: Annual Summary**

Year Approved/ Implementation Characteristic	Number of Approvals*	Number Completed	Per Cent Completed	Consumption ODP to be Phased Out*	Consumption ODP Phased Out	Per Cent of Consumption ODP Phased Out	Production ODP to be Phased Out*	Production ODP Phased Out	Per Cent of Production ODP Phased Out	Approved Funding (US \$)	Adjustment (US \$)	Funds Disbursed (US \$)	Per Cent of Funds Disbursed	Balance (US \$)	Estimated Disbursement in Current Year (US \$)	Administrative Support (US\$)	Administrative Support Adjustment (US\$)	Interest earned and reported (US\$)
